BEST. EVER.

The Most Versatile ECO-UV Printer

Designed for high-volume, large sign production, the X-98 does not sacrifice. Whether it's long-life outdoor signage or indoor photo-realistic UV prints, the X-98 can do it all. The 55"x98" full bleed bed is large enough to handle your biggest jobs, and small enough to fit in your shop.

Large flatbed printers print at high speeds, but are limited by substrate thickness. Small format printers print specialty items at slower speeds and are limited by substrate length and width.

The Xanté family of X-UV Printers do **BOTH**. It's the best of both worlds.

Signage ■ Manufacturing ■ Specialty Items ■ Industrial

Optional Roll-fed Attachment and Cutter

The 48-in. roll-fed attachment and multi-use cutter for X-55 and X-98 UV flatbed printers adds greater capability and flexibility to your UV flatbed. Take advantage of the flatbed design to cut a variety of media, including vinyl, acrylic, paper, and more.

Increase your ROI, become more efficient and serve creative new market trends.

Simply Brilliant Color Workflow

Welcome to iQueue Prepress Software

Xanté builds on its innovative workflow software with powerful team-based productivity in iQueue 14. True server-client operation enhances your workflow to optimize the talents and time of everyone involved in production. Take advantage of your entire team of IT

specialists, designers, and printer operators to simplify prepress tasks such as job sharing and job cost estimating, file editing tools, patented Right-ON® Spot Color Matching and much more. Create attention-grabbing displays with VividHD-UV ink. And, with instant curing, your customers will appreciate the fast, durable results.

Create a new job or simply drag and drop your file into the queue.

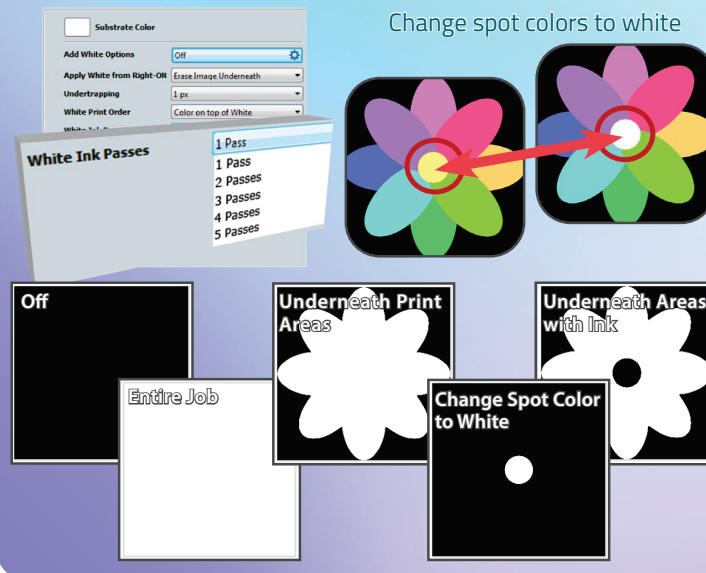

iQueue features include:

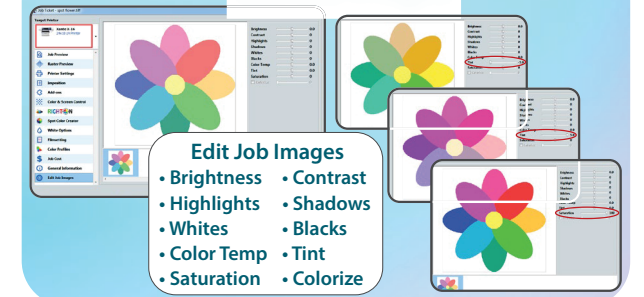

- Fully Independent CMYK Controls
- PANTONE® Color Library
- Right-ON® Spot Color Matching
- Full Imposition and Tiling
- QR Code Generator
- PDF-Out AND SO MUCH MORE!

White Options

Build depth with layers of white

Edit Job Images

Imposition allows you to optimize your page layout by placing images in the maximum number of columns and rows while also supporting margins and gutters.
