SINGLE LED LAMP

(Instant Ink Curing)

BEST. EVER.

The X-UV Printer cannot be beat.

Large flatbed printers designed for signage and graphics print at high speeds but are limited by substrate thickness.

Small format printers designed for specialty items print at slower speeds and are limited by substrate length and width.

The Xanté family of X-UV Printers do **BOTH**.
It's the best of both worlds.

Signage • Manufacturing • Specialty Items • Industrial • Packaging
