

HANGERS

SINGLE HANGING BAR INSTALLATION GUIDE

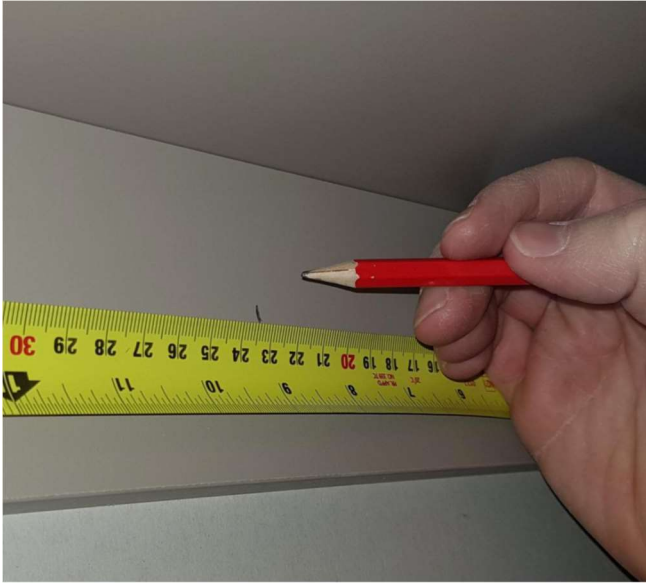

STEP 1

Instruction:

Measure out from the rear shelf bearer to 230mm on the side wall.

Mark a line for reference, when marking this line ensure that it is vertically level. This can be checked with a small spirit level.

STEP 2

Instruction:

At the 230mm point, measure down from the underside of the shelf to 80mm mark a line for reference.

This will be where the bottom edge of the hanging bar cup is located.

STEP 3

Instruction:

Secure Hanging cup into place.

Repeat on both sides.

STEP 4

Instruction:

Measure the distance between the two hanging bar cups.

Cut hanging bar to measurement.

STEP 5

Instruction:

Place hanging bar into hanging bar cups.

Interior is complete.
