### *Illustration of the Cargo Cover Installed in the Vehicle*

To use the cargo cover, pull it out from the frame using the tab. When it's a little past the mount, put the hooks into the mount slot as shown in the picture above.

### INSTALLATION

1. Remove the adhesive backing from the back of the mount. Then pull back the OEM insulation seal, and press the mount into place (see photos below).

2. Attach the two cargo cover hangers to the rear seat headrest stays as shown.
