WOODWRIGHTS

DESIGNED & CRAFTED  
IN NEW ZEALAND

WW

WOODWRIGHTS is a family of makers. Founded in 1997, each piece of furniture is meticulously designed and crafted in New Zealand, inspired by our unique lifestyle and extraordinary environment. With each piece a story is made, reflecting you and your way of living, not only today but for generations to enjoy.

# Made by generations, for generations.

Located in Motueka, for the past twenty five years, we've always been inspired by our unique lifestyle and environment. We combine the very best traditional techniques and exceptional craftsmanship with today's cutting edge manufacturing and design technology.

Our entire process is managed in-house, from our local designers to skilled artisans and customer services team to delivery drivers. It's our way of ensuring we are there to assist every step of the way. A dedication to making the experience as rewarding as possible is engrained in our team.

This year, we are excited to celebrate twenty five good years in business. We really do have our whole team to attribute this success to, and are eternally grateful for this. We can't wait to continue to inspire, design and craft right here in New Zealand.

This is Woodwrights — a family of makers.

# Designed by you, for you.

Every Woodwrights piece offers the unique opportunity to be personalised to fit your style and space. Explore our expanded range of materials and finishes for more options than ever before. Through our product visualiser, customise your selected piece and see your design in real time as you create it. Use your wishlists to seamlessly organise projects and save your designs.

You can also order your favourite material and finish samples straight to your door to ensure they suit your desired aesthetic.

Timeless by nature, our latest additions are an ode to simple, enduring forms. A collection of contemporary basics, featuring an innate tactility and a range of materials. The overall tone is one of balance; a blending of functionality and lightness.
