# Product Information

The 3-in-1 Mini MagSafe Fast Wireless Charger is the perfect solution for all your Apple charging needs. This innovative device is designed to simultaneously charge your iPhone, AirPods, and Apple Watch. Its portable and ultra-compact cubical design makes it easy to carry with you anywhere you go, while its hidden Apple Watch Charger stored on the bottom of the device ensures that you'll never be caught without a charge.

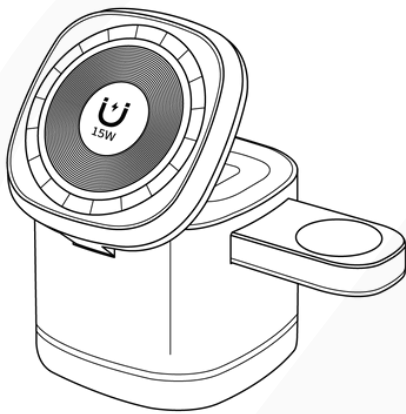

The 3-in-1 Mini MagSafe Fast Wireless Charger uses USB type-C power input to provide fast and efficient charging for all your Apple devices. With 15W fast charging for the iPhone, 3W charging for the AirPods, and 2.5W charging for the Apple Watch, you'll never have to wait long for your devices to charge.

The charger also features an elegant and durable design, with ABS and PC material that will stand up to daily use. And with built-in protections against over-discharging, short circuits, over-charging, and low tension, you can rest assured that your devices will always be safe and secure while charging.

# How to Use

1. Unbox the device
2. Use the charging cable provided with the device to connect it to a compatible power adaptor\*
3. Place the compatible phone on the main charging pad (A). This charging pad is MagSafe compatible.
4. You can charge your phone both in vertical or horizontal orientations. Strong magnetic suction will hold your phone in place.
5. Open the phone charger to find the AirPods charger (B)
6. The watch charger (C) is stored on the bottom side of the device.
7. Remove it and connect it to the side of the device. It'll pop in using magnetic connection for a secure hold.

\*To charge multiple devices you will require a PD + QC 3.0 power adaptor (must be purchased separately)

# Troubleshooting

**Phone is not charging:** If your phone is not charging please check for the following.

- Phone is placed correctly on the charging pad.
- Make sure the wireless charger is correctly connected to the power adaptor.
- If you are using a protective phone case, try removing it and placing the phone directly on the charging pad.
- Make sure there are no magnets in between the phone and the charging pad.

**Phone is charging slow:** If your phone is charging slow or not charging while wireless earbuds are charging it is usually a sign of lack of power. Please check to see you are using the correct type of power adaptor. For optimum performance you will require a PD + QC 3.0 power adaptor.

# Product safety information

- Do not store or use the device in a high temperature or high humid environment.
- Do not store or use near strong magnetic fields.
- Do not temper with the device.
- Keep out of reach of children.

These warnings are important to ensure the safety and longevity of the device. High temperatures and humidity can damage the device's internal components, leading to malfunction or failure. Strong magnetic fields can interfere with the device's electronic signals and cause it to malfunction. Tempering with the device can also cause irreparable damage and void any warranties. Lastly, keeping the device out of reach of children is important to prevent accidental damage or ingestion of small parts that may pose a choking hazard. By following these precautions, you can ensure the safe and optimal use of your device.
