Product Information

This 4-in-1 MagSafe Fast Wireless Charger is a game-changer for Apple users who want to keep all their devices powered up and ready to go. With 15W of wireless charging power, it's perfect for charging your Apple iPhone quickly and efficiently. But that's not all - it also has a dedicated charger for the Apple Watch, so you can keep it charged and ready to go at all times.

The second wireless charging pad on the base is perfect for charging your Apple AirPods (if they're wireless charging compatible) or another wireless charging device, like a Qi-charging compatible smartphone. And if you need to charge another device that doesn't support wireless charging, don't worry - there's a fast charge USB output that lets you charge an additional device at the same time.

With the ability to charge up to 4 devices simultaneously, this 4-in-1 MagSafe Fast Wireless Charger is the ultimate charging solution for Apple users who want to keep all their devices powered up and ready to go.

How to Use

1. Unbox the device
2. Use the charging cable provided with the device to connect it to a compatible power adaptor*
3. Use the MagSafe phone charger (A) to charge your MagSafe compatible phone.
4. Use the watch charger (B) to charge your compatible smart watch (supports Apple Watch)
5. Use the base charger (C) to charge your wireless charging compatible earbuds (supports Apple AirPods) or an additional Qi-charging compatible device. Base charger doesn't support fast charging.
6. The USB out on the back of the wireless charger supports fast charging and can be used to charge another device

*To charge multiple devices you will require a PD + QC 3.0 power adaptor (must be purchased separately)

Troubleshooting

Phone is not charging: If your phone is not charging please check for the following.

- Phone is placed correctly on the charging pad.
- Make sure the wireless charger is correctly connected to the power adaptor.
- If you are using a protective phone case, try removing it and placing the phone directly on the charging pad.
- Make sure there are no magnets in between the phone and the charging pad.

Phone is charging slow: If your phone is charging slow or not charging while wireless earbuds are charging it is usually a sign of lack of power. Please check to see you are using the correct type of power adaptor. For optimum performance you will require a PD + QC 3.0 power adaptor.

Product safety information

- Do not store or use the device in a high temperature or high humid environment.
- Do not store or use near strong magnetic fields.
- Do not temper with the device.
- Keep out of reach of children.

These warnings are important to ensure the safety and longevity of the device. High temperatures and humidity can damage the device's internal components, leading to malfunction or failure. Strong magnetic fields can interfere with the device's electronic signals and cause it to malfunction. Tempering with the device can also cause irreparable damage and void any warranties. Lastly, keeping the device out of reach of children is important to prevent accidental damage or ingestion of small parts that may pose a choking hazard. By following these precautions, you can ensure the safe and optimal use of your device.
