# 4-in-1 Foldable Fast Wireless Charging Dock

# Product Information

The 4-in-1 Foldable Fast Wireless Charger is a game changer for Apple device users. With the ability to charge your iPhone, AirPods, and Apple Watch all in one place, it makes staying charged and organised easier than ever before. The charger is also equipped with a 15W USB output, allowing you to fast charge any device that is compatible with USB charging.

In addition, the wireless charger provides 15W of charging power, ensuring that your iPhone charges quickly and efficiently. The 15W main charging base is also moveable, allowing you to charge your device in either a vertical or horizontal position.

The wireless charger can be folded for easy storage. The slim profile of the wireless charger makes it a great device to take with you on the go.

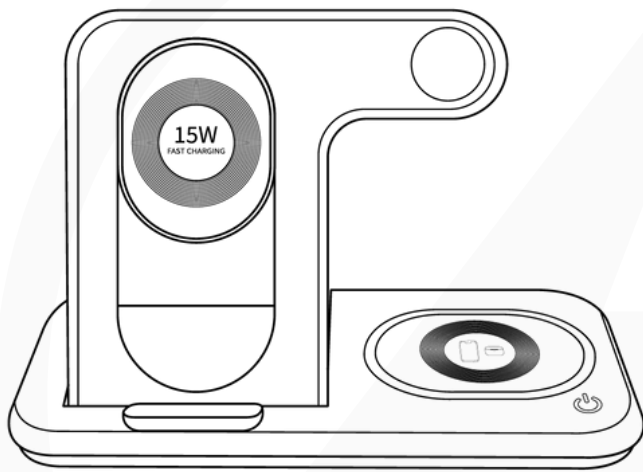

The base wireless charger can wirelessly charge an Qi-wireless charging compatible device and supports wireless charging for Apple AirPods.

The soft ambient lighting on the wireless charger creates a warm and inviting atmosphere, making it a great addition to any room.

# How to Use

1. Unbox the device
2. Use the charging cable provided with the device to connect it to a compatible power adaptor\*
3. Place the compatible phone on the main charging pad (A). This charging pad is not MagSafe compatible. So it is able to charge non-MagSafe devices as well.
4. You can charge your phone both in vertical or horizontal orientations by simply moving the charging pad (A) up or down.
5. You can use the base charging pad (B) to charge any Qi wireless charging compatible device. It has support for wireless charging compatible Apple AirPods.
6. The watch charger (C) can be used to charge any Qi-wireless charging compatible smart watch including the Apple Watch.

\*To charge multiple devices you will require a PD + QC 3.0 power adaptor (must be purchased separately)

# Troubleshooting

**Phone is not charging:** If your phone is not charging please check for the following.

- Phone is placed correctly on the charging pad.
- Make sure the wireless charger is correctly connected to the power adaptor.
- If you are using a protective phone case, try removing it and placing the phone directly on the charging pad.
- Make sure there are no magnets in between the phone and the charging pad.

**Phone is charging slow:** If your phone is charging slow or not charging while wireless earbuds are charging it is usually a sign of lack of power. Please check to see you are using the correct type of power adaptor. For optimum performance you will require a PD + QC 3.0 power adaptor.

# Product safety information

- Do not store or use the device in a high temperature or high humid environment.
- Do not store or use near strong magnetic fields.
- Do not temper with the device.
- Keep out of reach of children.

These warnings are important to ensure the safety and longevity of the device. High temperatures and humidity can damage the device's internal components, leading to malfunction or failure. Strong magnetic fields can interfere with the device's electronic signals and cause it to malfunction. Tempering with the device can also cause irreparable damage and void any warranties. Lastly, keeping the device out of reach of children is important to prevent accidental damage or ingestion of small parts that may pose a choking hazard. By following these precautions, you can ensure the safe and optimal use of your device.
