4-in-1 Magnetic Fast Wireless Charger for Apple iPhone

Product Information

The 4-in-1 Magnetic Fast Wireless Charger for the Apple iPhone is a must-have for Apple device users. It allows you to charge your Apple iPhone, Apple AirPods, and Apple Watch simultaneously, along with an additional device through the USB power output. The charger is also MagSafe compatible, which ensures safe and secure charging for your Apple iPhone.

Another great feature of this wireless charger is the secure charging for your Apple devices, as it comes equipped with Short Circuit, Over-charging, Overcurrent, and Overvoltage protection. This ensures that your devices are protected from any potential damage while charging.

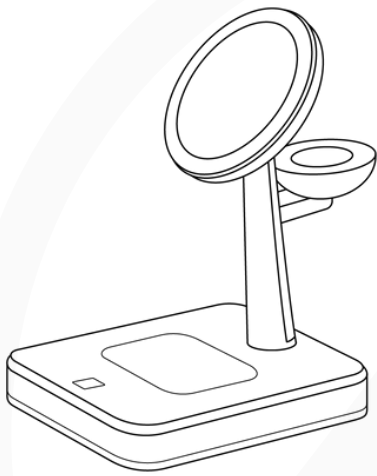

Moreover, the charger comes with a warm ambient lighting feature that provides a pleasant touch to your surroundings. The touch operation allows you to adjust the intensity of the lighting to your liking.

If you need to charge an additional device, the charger also has a USB power output that you can use. However, if you want to charge all four devices simultaneously, it is recommended that you use a QC 3.0 power adapter. This will ensure that all devices are charged quickly and efficiently.

How to Use

1. Unbox the device
2. Use the charging cable provided with the device to connect it to a compatible power adaptor*
3. Place a compatible phone on the MagSafe phone charging pad (A). Magnetic absorption allows you to orient your phone either vertically or horizontally.
4. You can use the base charging pad (B) to charge any Qi wireless charging compatible wireless earbuds.
5. Use the watch charger (C) to charge an Apple Watch or any Qi-wireless charging compatible smart watch.
6. The USB power output port (D) on the back of the device allows an additional device to be charged.
7. Touch sensitive light switch on the base allows you to control the intensity of the nightlight.

*To charge multiple devices you will require a PD + QC 3.0 power adaptor (must be purchased separately)

Troubleshooting

Phone is not charging: If your phone is not charging please check for the following.

- Phone is placed correctly on the charging pad.
- Make sure the wireless charger is correctly connected to the power adaptor.
- If you are using a protective phone case, try removing it and placing the phone directly on the charging pad.
- Make sure there are no magnets in between the phone and the charging pad.

Phone is charging slow: If your phone is charging slow or not charging while wireless earbuds are charging it is usually a sign of lack of power. Please check to see you are using the correct type of power adaptor. For optimum performance you will require a PD + QC 3.0 power adaptor.

Product safety information

- Do not store or use the device in a high temperature or high humid environment.
- Do not store or use near strong magnetic fields.
- Do not temper with the device.
- Keep out of reach of children.

These warnings are important to ensure the safety and longevity of the device. High temperatures and humidity can damage the device's internal components, leading to malfunction or failure. Strong magnetic fields can interfere with the device's electronic signals and cause it to malfunction. Tempering with the device can also cause irreparable damage and void any warranties. Lastly, keeping the device out of reach of children is important to prevent accidental damage or ingestion of small parts that may pose a choking hazard. By following these precautions, you can ensure the safe and optimal use of your device.
