JURNI

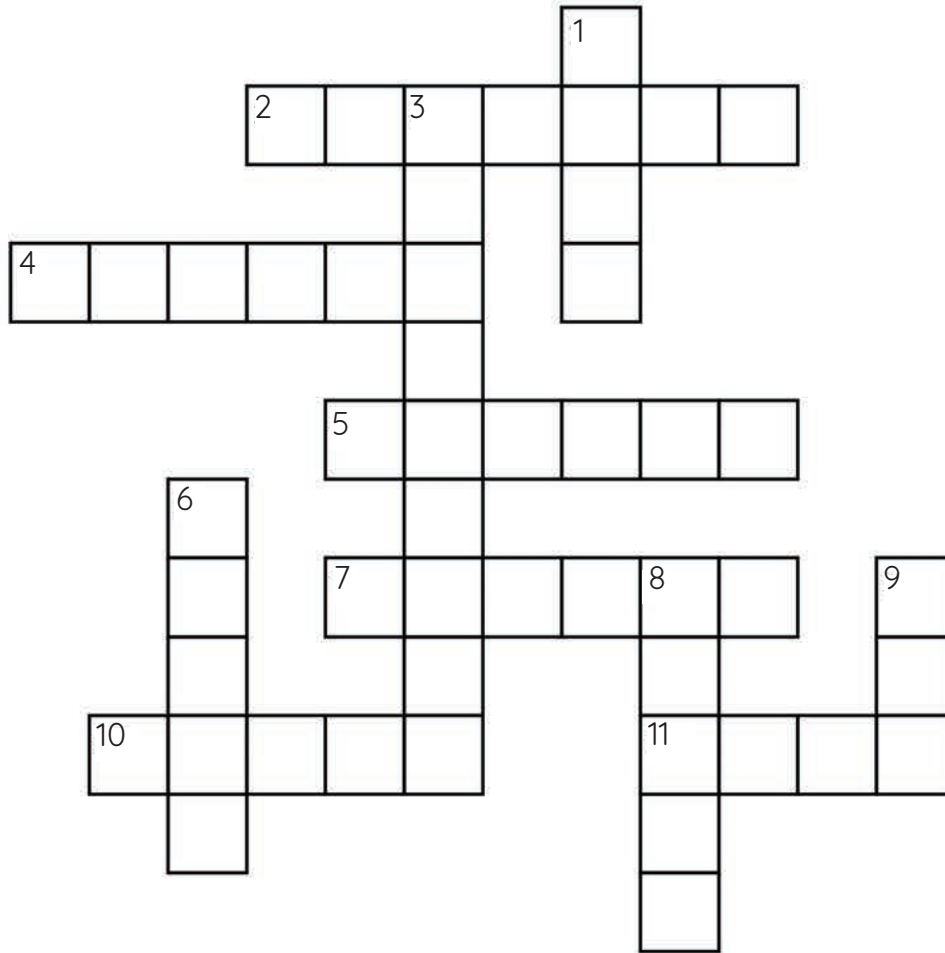

JURNI

SPACE

Down:

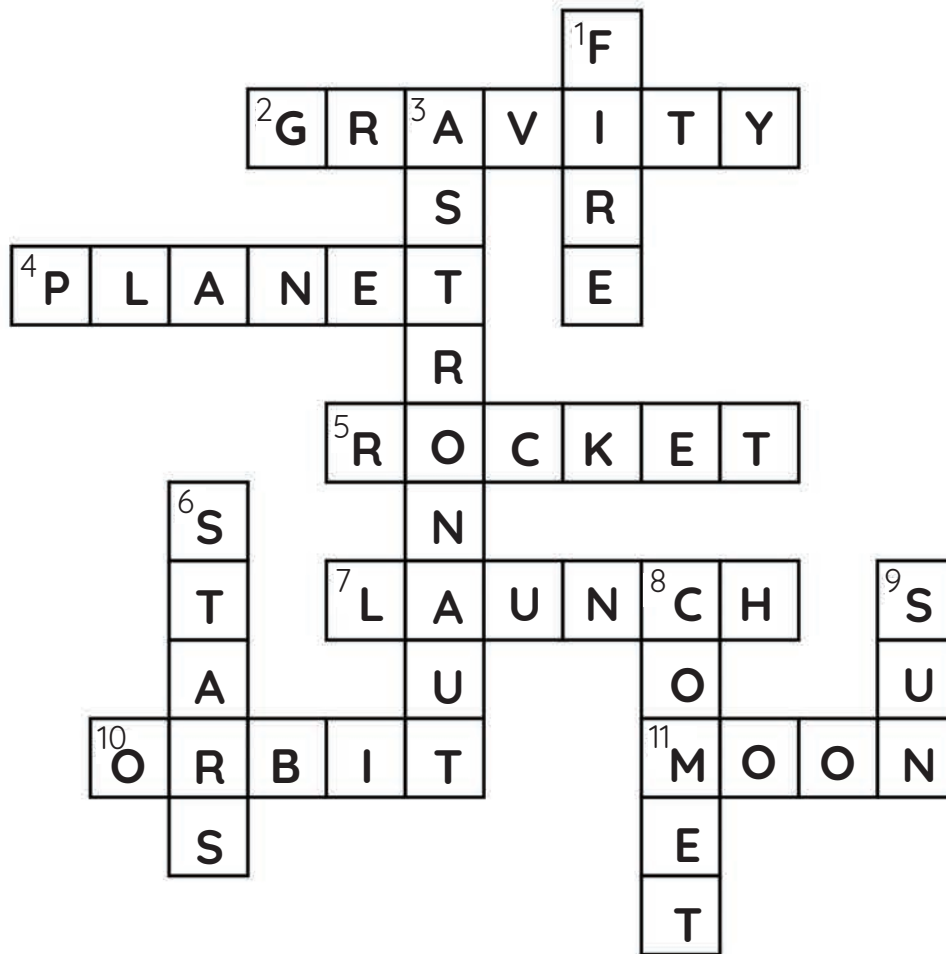

1. The light and heat produced by burning
3. A person trained to take part in space flight
6. Huge glowing balls of gases
8. Often called the “dirty snowballs” of the Solar System
9. The star in the middle of our solar system

Across:

2. An invisible force that pulls objects toward each other
4. Large natural objects that travel around stars
5. A flying device, shaped like a tube
7. To send into the air with great force
10. The path of an object around a particular point in space
11. Second brightest object in the sky after the Sun

CROSSWORD PUZZLE 1

ANSWER KEY

Down:

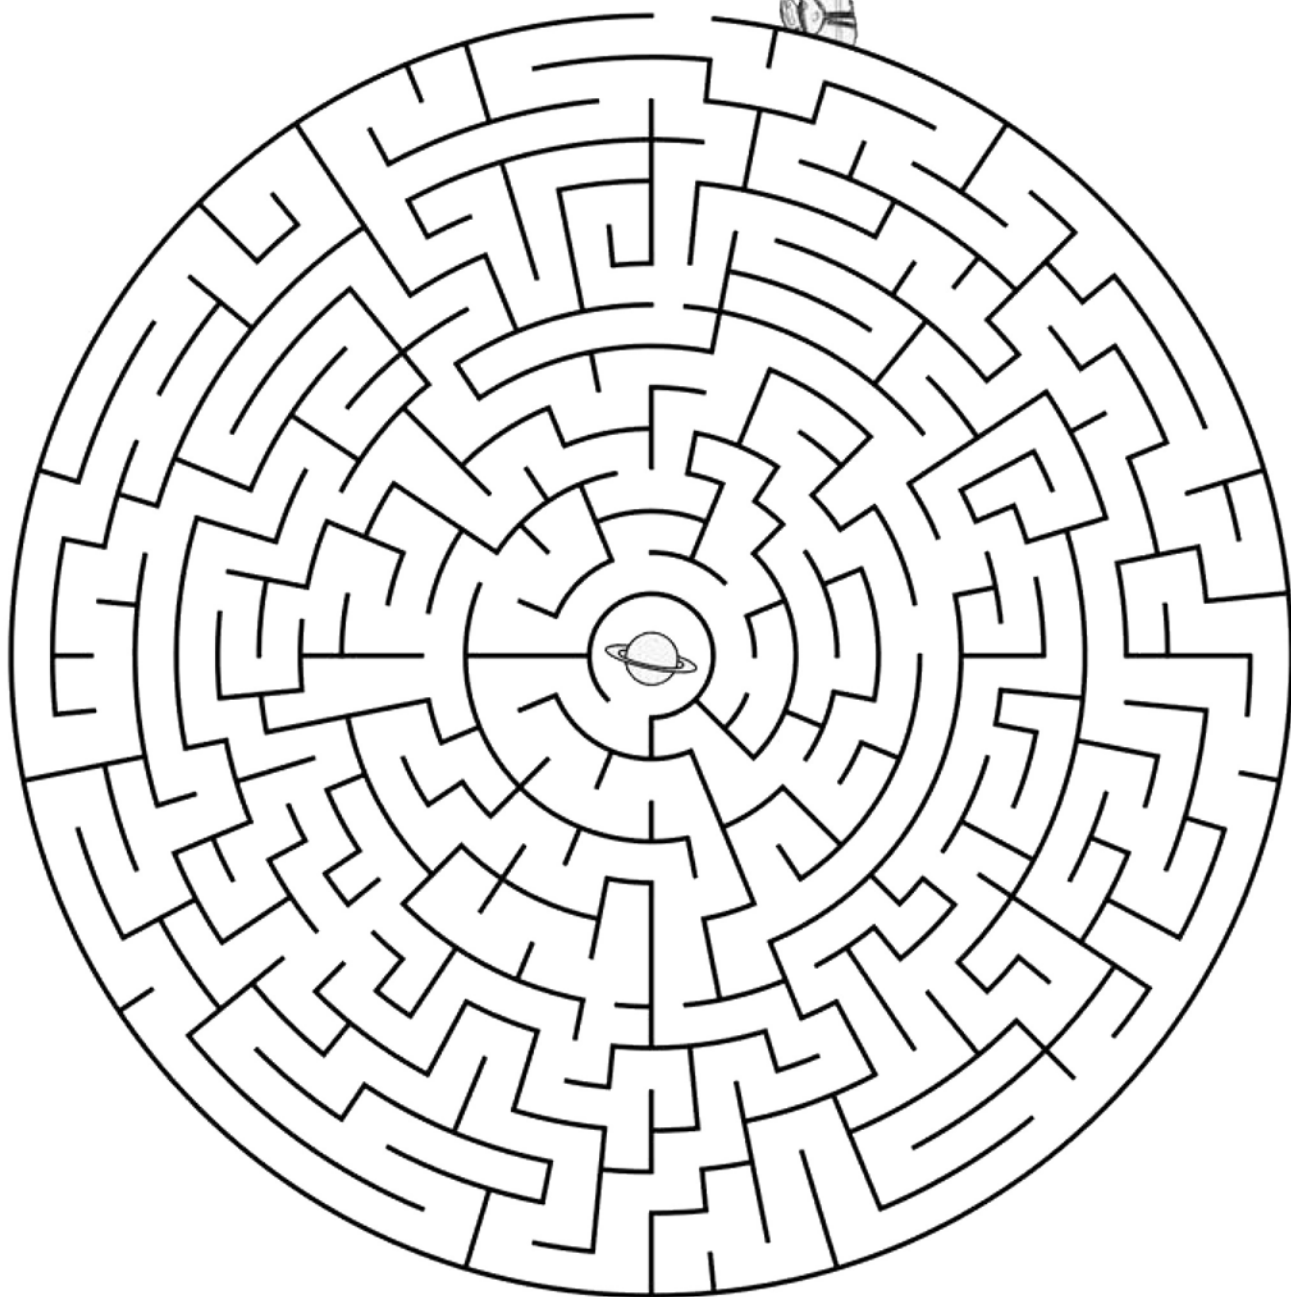

1. The light and heat produced by burning
3. A person trained to take part in space flight
6. Huge glowing balls of gases
8. Often called the “dirty snowballs” of the Solar System
9. The star in the middle of our solar system

Across:

2. An invisible force that pulls objects toward each other
