FACIAL TREATMENTS

LED LIGHT THERAPY

\$99
Members Free

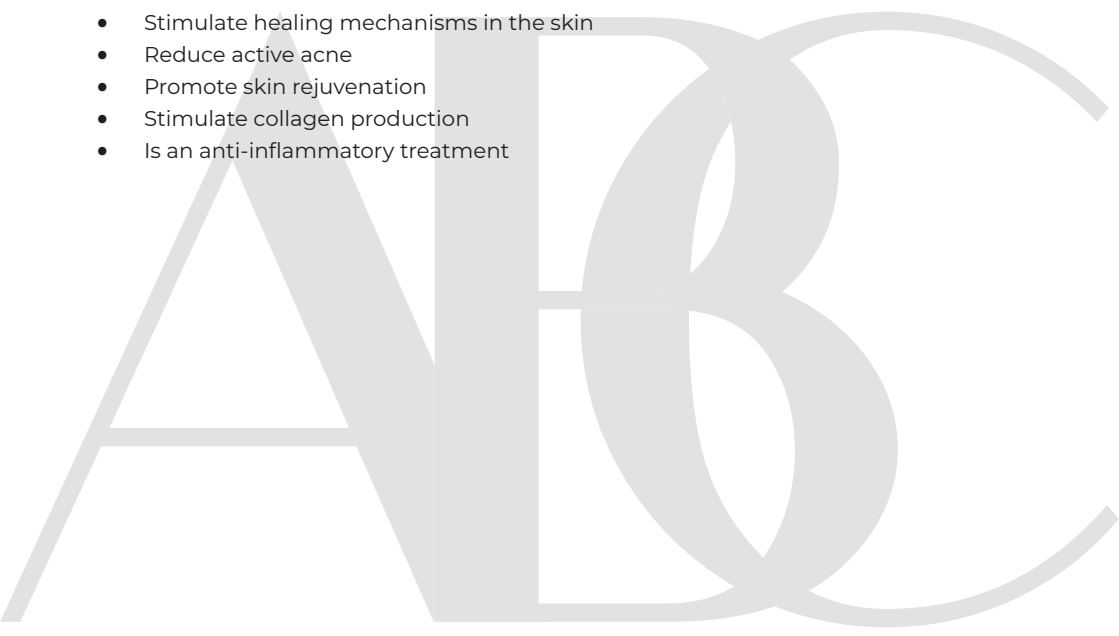

Phototherapy has long been known for its healing and anti-inflammatory properties. Research has shown that the treatment can increase collagen production, destroy bacteria, reduce inflammation, improves skin tone, texture and clarity.

Different wavelengths of light in LED lights, including blue, red & green, penetrate the skin at different depths. This penetration triggers biological processes that help the skin rejuvenate and heal.

LED is great for relaxing the appearance of fine lines and wrinkles, improving uneven skin tone, brightening the skin, reducing inflammation & redness in the skin. LED Light can be used for any skin types and is a non-invasive, painless, safe and effective skin treatment.

What it does

- Stimulate healing mechanisms in the skin
- Reduce active acne
- Promote skin rejuvenation
- Stimulate collagen production
- Is an anti-inflammatory treatment

HAIR REMOVAL TREATMENTS

PREMIUM WAXING

No double dipping here! Hygiene is our priority! We use only the highest quality of Australian made wax for the most sensitive skins!

LASER HAIR REMOVAL - SUPER FAST **ZERO PAIN**

Our Triple Wavelength Diode Laser is cutting edge technology in the field of Laser Hair Reduction. The synergic benefits of the 3 most effective wavelengths for hair removal, each targeting different structures within the hair follicle.

SHAVING - When you're getting ready for your laser hair removal procedure, make sure you shave the night before or the morning of your treatment. The reason for this precaution is simple – you want to remove as much hair as possible so that the hair above the skin doesn't absorb most of the laser's energy.

*If you are unable to shave the area before your treatment and you require your laser technician to shave the area for you this will come at an added extra cost.
