

MULTIPRO GRIT

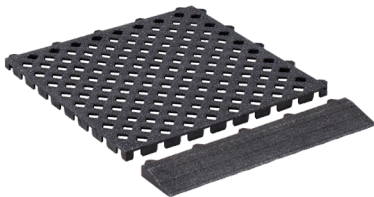

The MultiPro Grit tiles are the same as the comfort tiles, but with a silicon carbide grit surface for ultimate traction in any condition. They can be interlocked with the Comfort tiles and are excellent around machines in the manufacturing industry to prevent slip hazards. Available in both open and closed top.

FEATURES

- Ideal for food areas, around machinery, packing areas, wet areas, repair garages
- Heavy duty, durable design
- Great anti-slip grit coarse on the surface
- Modular design, interlocking to cover large areas
- Available with or without holes
- Edge ramps available to eliminate trip hazards
- Made from recycled material
- UV protected
- Indoor/outdoor use
