

SAFETY TREAD TAPE RESILIENT

Resilient Textured PVC Tape works well in the office, plant, locker room or areas with bare foot traffic. It is ideal for use in wet areas, including showers. The surface has a deep embossed traction pattern that will perform in heavy duty applications, while still being comfortable on bare feet. We recommend this product in office environments and light plant uses. It can be very easily cleaned and will not trap dirt in the way normal grit products can. Suitable for mop cleaning.

CODE	SIZE (mm)
Safety Tread Resilient Black	
STRE50R	50mm wide x 18.3m
