

# SAP REMOVER

SAP AND ORGANIC RESIN REMOVER

PRODUCT CODE: 180

## DESCRIPTION AND PRODUCT BENEFITS:

Sap and Organic Resin Remover is a quick drying formula that penetrates, lifts and dissolves sap and organic resins. It wipes away sap from your vehicle's painted surfaces in a fast and efficient manner.

## DIRECTIONS OF USE AND APPLICATION:

1. Wash and dry your vehicle with one of Auto Valet's™ Vehicle Wash Soaps, creating a clean surface to work on.
2. Pour Sap Remover onto a clean microfiber towel or terry cloth.
3. Set the cloth on top of the desired area and let it sit for at least 30 seconds.
4. Rub the area until the sap is gone. Some tree sap can be extremely cumbersome to remove, so you might need to repeat steps 3 and 4.
5. When your car's paint is free of sap, polish with Tropical Gold or spray a few mists of Formula Plus on the paint, polish it off or clean with a detailing cloth.

## PRECAUTIONS:

This product is Flammable. Keep away from sources of ignition or open flames. Keep from freezing and do not mix with other chemicals.

## HEALTH & SAFETY INFORMATION

For further information on the safe handling, storage and precautions for use of this product, consult the Safety Data Sheet. Keep out of reach of children.

## DISCLAIMER:

As the actual conditions of use are out of our control no liability is accepted for any loss or damage caused directly or indirectly through the use of our products. Intending users should satisfy themselves, by carrying out appropriate tests, as to the suitability of this product for any particular purpose.
