

Memory Foam Mattress

This 3 core foam mattress is made up of 3 different high quality foam types. The base layer is a 35D grade foam, support layer is a 30D grade foam and the top layer being a 60D grade heavy duty memory foam. This mattress maximizes immersion and envelopment of body to achieve maximum contact. Providing comfort and passive pressure relief protecting against ulcers and pressure sores. The foams are viscoelastic, free from latex, temperature sensitive and moulds to users shape.

Product Code: M02-S
