

A photograph of a caregiver, a young woman with long brown hair wearing a light blue long-sleeved shirt, assisting an elderly woman with white hair wearing a pink long-sleeved shirt. They are outdoors in a garden setting, and the caregiver is helping the elderly woman use a wooden walker. The background is filled with green foliage and trees.

Introduction

For 60 years Mounties Group has been delivering to the needs of people in our Profit for Purpose business with the simple and clear purpose to improve lives.

Whilst most providers are for profit businesses designed to make a profit for their owners or shareholders, Mounties Group has no shareholders and pays not dividends, using all our profits to meet our core purpose of improving the lives of our members.

At Mounties Care, we take a people centred approach to offering a holistic approach to a better life and offer quality products and services for improving daily living through to General Practice medical centres, Specialist Doctors, Home Care Nursing services and Social inclusion programs for a better and more connected life.

Instead of paying profits to shareholders, we use our profits we make to fund important services such as Australia's fastest rescue helicopter, life saving boats on local beaches and free defibrillators in our local communities.

You can now also find all your needs in terms of mobility and daily living aids from the name you have been able to trust for 60 years

- Fits up to 25.4mm diameter
- Suits most canes

Tri/Quad Ferrules

VS101/RMQT19

- Fits all 19mm walking stick bases

SCOOTERS & POWERCHAIRS

Portable Scooters

The Luggie Range

Luggie scooters are fold-up scooters that fit in the boot or can be taken on a plane. They are highly engineered, lightweight, and run on Lithium-ion batteries. Grab a coffee at your local, or in Paris. It's up to you.

Models

There are 5 different models, catering to different budgets and needs. Some are a bit sturdier, with up to 160kg carrying capacity. Others have a tighter turning circle, for those extra tight spaces. All of them feature a unique half-fold method for levering it into the boot. Talk to a Mouties Care representative to figure out which one is best for you.

Buzz 4 Scooter

The Buzz is a pull-apart scooter. If you're looking for a cheaper option but still something portable, it's the way to go. The scooter can be disassembled into 5 separate parts, the heaviest of which is just 13 kgs. On the footpath or indoors, it's a nifty little machine.

Pride Go-Go LX

The Go-Go LX is a slightly more heavy duty portable. It too can be pulled apart, with its heaviest section coming in at 16.6kg. The extra weight means extra features though, and the Go-Go LX comes with CTS suspension and a tighter turning circle.

Footpath Scooters

Pride Pathrider 10DX

The Pathrider has all the quality known to the Pride brand. It can be disassembled for transportation in a large enough boot, and it's also quite a rugged little machine. It carries up to 159 kg and has suspension equal to any footpath.

Monarch Zener

The Zener is the quintessential medium-sized scooter. With a contoured swivel seat and backrest adjustment, independent suspension, and large pneumatic tires, it promises a comfortable ride at a reasonable price.

Monarch Volta

The Volta is a step up in size from the Zener. Its bigger motor and larger tyres mean that it's able to tackle some hilly terrain. But it's still small enough that it can duck and weave in a supermarket aisle. It comes equipped with fully independent suspension, a high-backed seat, and a handy basket.

Monarch Tesla II

The Tesla hits the sweet spot for large scooters. It's easy and smooth, and with a powerful 4-pole motor it will get you from point A to B no questions asked. It has a battery range of up to 45 km, head and tail indicator lights, comfy captain's chair, dreamy suspension, and large 310mm tyres. Comes with a canopy option.

Free Rider 510

The Freerider 510 is the heaviest duty scooter we sell. It can carry up to 227kg and it can handle all the hills, all with comfort and stability. Big 13' wheels and a high ground clearance.

Afikim Breeze S4

For the ultimate in comfort, size, and stability. The Breeze S4 is the prestige large scooter. With a battery range of up to 45 km, full LCD control screen, soft suspension, option for fully integrated sun and rain canopy, the Breeze provides a pleasurable, car-like experience.

Powerchairs

Luggie Travel Rider

Freerider brings its engineering expertise to powerchairs as well. Like its scooter cousins, the Travelrider can be folded down for transportation in the boot or a plane. Highly manoeuvrable, lightweight yet sturdy, the Travel Rider is a powerchair for getting on the move.

Monarch Literider

The Literider is an entry level, all-purpose powerchair. It can be disassembled for transportation, is small enough for a workplace or house, yet is still tough enough for moderate slopes outdoors.

Merits Maverick

The Merits Maverick comes in 10", 12", and 14" wheel varieties, each more heavy duty than the last. This powerchair is renowned for its quality, reliability, and comfort. It has a larger wheelbase, and more powerful motor for those needing a little extra oomph.

Can't see the exact scooter you're looking for?

Mounties Care staff are familiar with just about every model and brand in the country. There's even a good chance we currently have one in stock somewhere, even if it's not mentioned here. Get in touch and we can make sure you get your hands on the scooter that's right for you.

WHEELCHAIRS

Deluxe S/P Wheelchair

Mobility &
Independence

A photograph of a woman with long dark hair, wearing a green t-shirt, hugging a man from behind. The man is sitting in a wheelchair and wearing a blue and white plaid shirt over a white t-shirt. Both are laughing joyfully. They are outdoors on a paved path with trees in the background.
