

Gel Comfort Cushion

The Cobalt Gel Comfort Cushion features patented dual 3D honeycomb and air cell beta gel technology that keeps the cushion cool and ventilated while dispersing pressure on areas prone to discomfort and pressure sores, as well as assisting in optimal blood flow. This cushion is designed for easy cleaning for continued use, the cover is machine washable and the gel insert can be washed at temperatures up to 50 degrees.

- * Medium to high pressure care rating
- * 3D honeycomb and air cell beta gel technology
- * Air cell beta gel keeps the cushion cool and ventilated
- * Beta gel protects skin and encourages optimal blood flow
