

### Pressure Care Mattress

This Low to Medium Risk Pressure Care Mattress is made up of 3 layers, featuring a high density diamond pattern top layer providing firm support for those with pressure sores. It has an ultra soft end section to avoid pressure sores in the heels. This mattress is designed to give excellent ventilation through the air channels creating a perfect micro-climate. It has firm supported sides which assists in transfers and helps to prevent falls. The 4 way stretch PU mattress cover is included which is water resistant and fire retardant. It is antibacterial, antimicrobial and machine washable (up to 95 deg) with a waterfall zip on 3 sides for easy removal.
