

Shifty Transfer Assist Trolley

The Shifty Transfer Assist Trolley with Leg Spread is designed to assist in transferring a person from one seated position to another. It is suitable for use in homes or healthcare facilities and features a small narrow frame that allows easy access through doors and corridors. It is smoothly powder coated with padded foam sections, both designed to be easily cleaned at high temperatures. The user is required to be able to weight bear through their legs and arms.

- * Suitable for in homes and healthcare facilities
