ENGLISH

Introduction

Thank you for purchasing the Blackjet VX-1P reader for AJA Pak Media drives!

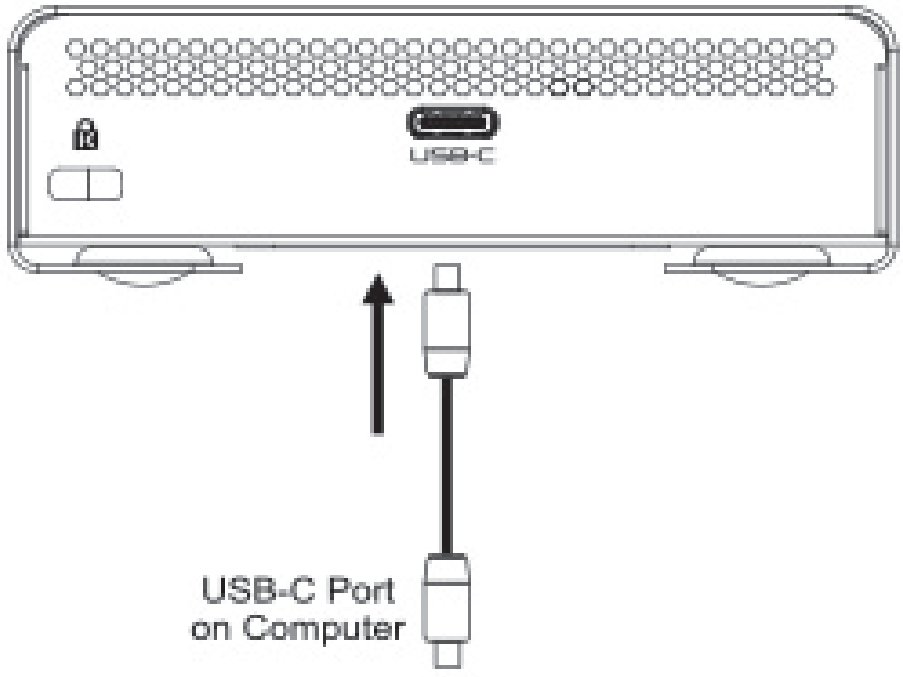
VX-1P is designed to be integrated into your video workflow process.

VX-1P boosts your video workflow by using USB 3.1 Gen 2 technology with speeds of up to 10Gb/s. You can now quickly and easily ingest, edit, or back up your video contents from your AJA Pak Media drives with transfer speeds of up to 525 MB/s.

Hardware Setup

Connecting to Computer

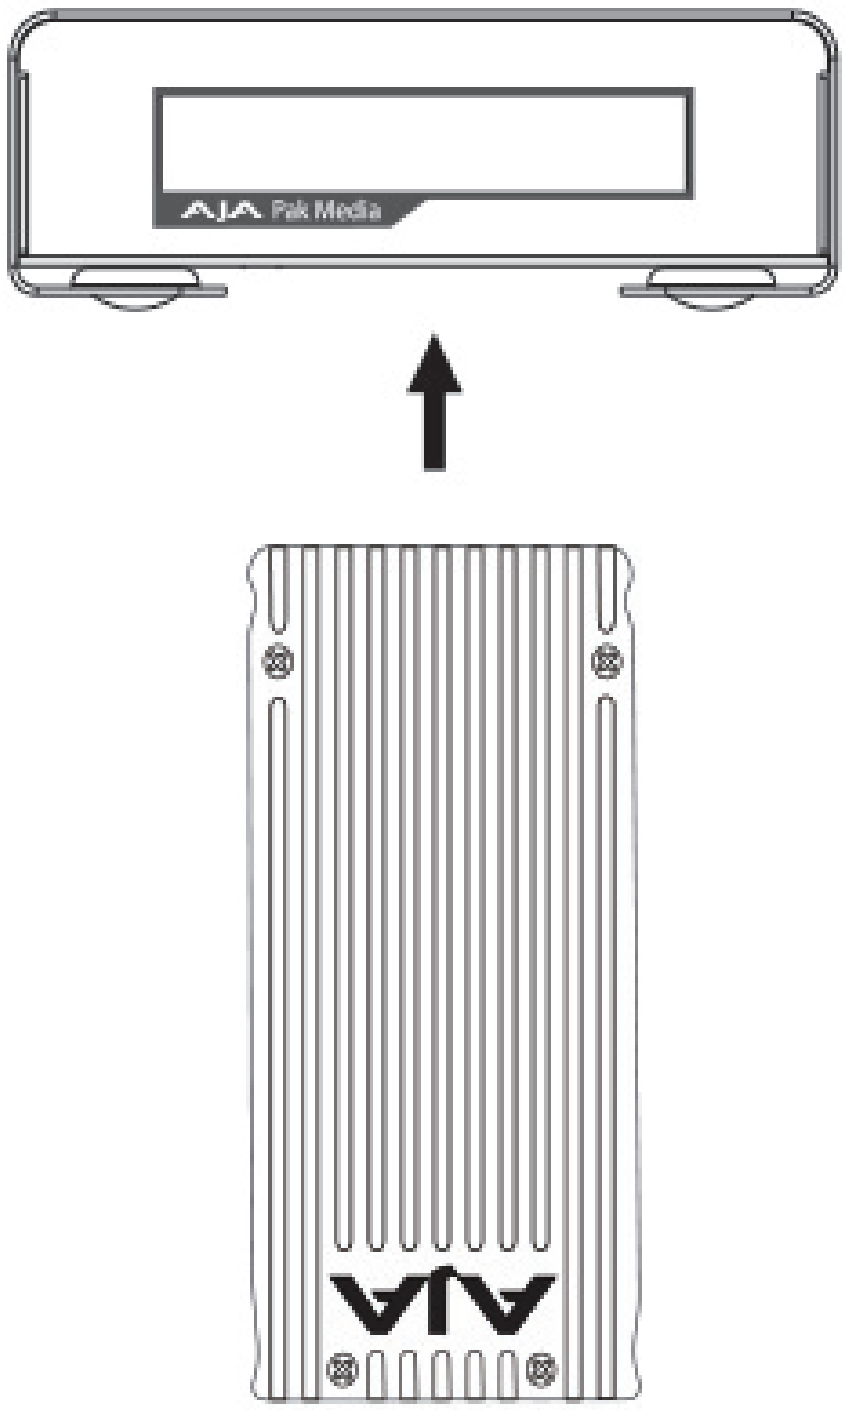
1. Connect one end of USB-C cable to USB-C port on the VX-1P unit.
2. Connect the other end of USB-C cable to USB-C port of computer.
3. VX-1P is also compatible with Thunderbolt 3 Type-C computers.



Using VX-1P

Inserting in your media card

1. Pak Media drive should have AJA logo facing up and gold contacts facing back and towards card slot.
2. Hold the Pak Media drive and gently insert into card slot.
3. Push into the card slot until you feel the Pak Media lock into place.
4. The Pak Media LED indicator will illuminate once the drive is detected.
5. The LED indicator will flash when there is any disk activity.



AJA Pak Media

Removing Drives

Important Notes!

Please make sure LED is not flashing, before ejecting or removing the media card. This will prevent any data loss or any errors.

Ejecting Drive (macOS Sierra +)

1. Locate the drive icon on your desktop you wish to eject.
2. Right click on the drive icon and select Eject.
3. AJA Pak Media LED will flash and your drive will be ejected.
4. The selected drive icon will disapper from the desktop.
5. Now you can safely remove the Pak Media card from Blackjet VX-1P.

Ejecting Drive (Windows 10)

1. Locate the Safely Remove Hardware and Eject Media icon on bottom right of your desktop. Click the icon and a list of available drives and devices will appear.
2. Select and click on the drive you wish to eject.
3. The Safe to Remove Hardware notification window will pop-up.
4. Now you can safely remove the media card from Blackjet VX-1P.

Safety Information

Caution!!

Please do not remove media cards when the LED lights are blinking. Failing to do so may result in damage or data corruption.

Make Back-up Copies

We strongly recommend that you copy the files in the media cards to your computer first before attempting to view or make any changes to the files.

To help prevent the loss of your data, we highly recommend that you keep back-up copies of your data in separate storage locations. Keep one copy on your internal system hard drive and another copy on a second hard drive.

Limited Warranty

Atech Flash Technology, Inc. ("AFT"), warrants to the original end user ("Customer") that under normal intended use AFT media docking solutions will be free from defects in materials and workmanship for one (1) year from the date of purchase. During warranty period, AFT shall either repair, or replace defective product. AFT shall not be liable for any losses or damages of any kind resulting from the use of AFT products or for any of Customer's data stored on products returned to AFT for service. AFT accepts no liability for and provides no expressed or implied warranty against any loss of data or videos.

You may register your product at http://www.atechflash.com. Customer must have proof of purchase and obtain warranty service authorization from AFT within the applicable
warranty period before returning defective products to AFT. Returned products must be shipped prepaid and packaged appropriately, and it is recommended that they be insured or sent by a method that provides for tracking of the package.

Limitations: This limited warranty is in lieu of all other warranties, terms or conditions; including warranties, terms, or conditions of merchantability, fitness for a particular purpose, satisfactory quality, suppliers, and in no event will AFT be liable for any special, incidental, consequential, or indirect damages resulting from the possession, use or failure of this product. Product names mentioned herein are for identification purposes only and may be trademarked and/or registered trademarks of their respective companies.
