

*Rookie*

WINTER COVER

# IMPORTANT! KEEP INSTRUCTIONS FOR FUTURE REFERENCE AND USE

## ⚠ WARNING: SUFFOCATION HAZARD

### Follow instructions for use

Children can suffocate if used improperly or without adult supervision. The wearer must be sure that the baby's airway is clear and that the baby is breathing normally at all times.

When attaching the cover, never unbuckle your Rookie's shoulder straps whilst your baby is in the carrier. Refer to our manual for further warnings and instructions regarding the use of your Rookie baby carrier.

### Instructions

Please refer to the instructions for use below, additionally you will find a video instruction on our website.

1. On the inside of the winter cover, you will find snap buttons on either side. Secure one around each shoulder strap on the OUTSIDE of your Rookie.
2. To reduce the width of your winter cover, tighten the straps on the front and secure the remaining loose ends in place by threading them through the allocated strap loops.
3. Place your baby's feet inside each allocated foot pocket. For newborn babies up to size 62, you can adjust the height by fastening the snap buttons allocated on the foot pockets together.
4. EXTRA: To allow for ventilation, you can open the foot pockets or pull the feet through the pocket openings.
