

# WOMEN OF FAVIANA

The Women of Faviana presents *The Faviana Women's Leadership Conference*

**DATE: OCTOBER 2020**

**LOCATION: NYC**

## ABOUT THE CONFERENCE

---

The Faviana Leadership Conference is the destination for high school girls across the country in their junior and senior years that focuses on equipping young women with the skills and knowledge necessary to become the strong leaders of our future. Our goal is to help young women celebrate themselves by empowering and inspiring them to go after their dreams through a conference featuring a panel of relatable, diverse, and accomplished female guest speakers. As these young women are preparing for college and life as young adults, they will gain valuable insight from successful women who have proven themselves as innovative leaders in their respective fields. It is also our aim to welcome a portion of attendees to the conference on a 'scholarship'-- based on merit recommendations or socio-economic difficulty. The girls will spend the morning and afternoon listening to an array of engaging presentations from our distinguished thought leaders and will have the opportunity to network and build relationships following the discussion. Then, the young women will break off into small groups and work closely with designated mentors to develop their highly personalized and custom road map with which to help navigate the upcoming years of their lives.

## ABOUT THE SPEAKERS

---

The "path to success" is certainly not one fit for all, as the young women will be of witness to during the guest speaker panel presentations. The all-star panel will be diverse in the sense that every young woman present in the audience, no matter her background or experience thus far, will be able to relate to at least one of them or their stories. The guest speakers, coming from all walks of life, ethnicities, and economic status, have overcome adversity and risen to success in ways that will help shape and build future leaders in these young women.

---

## MESSAGE TO TAKE HOME

---

The girls will leave the conference having been informed as to what challenges women face in the work world, they will gain insight into how to navigate a path towards leadership, and they will be inspired to identify their unique truth and create a life of value, meaning, and passion.
