

Top Experts from China

Digestive Health Series

HOSTED BY: TIANJIANG | HEALOONOW | TREASURE OF THE EAST

Introduction

The World Chinese Medicine Forum is an independent, non-profit academic exchange platform. Its purpose is to shed light on the latest developments, research trends, and pioneering research in the field of Chinese medicine, and to serve as a lively venue for academic discussion and development for the Chinese medicine community.

Forum Values

Expertise

The forum brings together top experts, professors, and researchers in the field of Chinese medicine, focusing on specialties for which Chinese medicine holds unique advantages. Our goals are to share potentially impactful research results and to promote the globalization of Chinese medicine.

Collaboration

The forum unites universities, industry members, professional societies and other organizations to integrate academic resources of Chinese medicine to help form a collaborative, efficient, and open academic innovation body in the global field of Chinese medicine in order to realize a greater vision of Chinese medicine serving human health.

Dr. Suiping Huang, MD, Ph.D.

About the Instructor

DR. SUIPING HUANG IS A RENOWNED TCM GASTROENTEROLOGIST

- **Chief physician, professor, and doctoral supervisor** of Guangzhou University of Traditional Chinese Medicine.
- **Director** of the Department of Gastroenterology of Guangdong Provincial Hospital of Traditional Chinese Medicine
- **Head** of the digestive specialty of the National Drug Clinical Trial center.
- **Presided** over and participated in 2 national-level projects, 3 provincial and ministerial-level projects, and 7 department-level projects.
- **Awarded second prize** for Guangdong Province Traditional Chinese Medicine Science and Technology Progress Award.
- **Awarded second prize** for Guangzhou University of Traditional Chinese Medicine Science and Technology Progress Award and the Basic Research Award.
- **Edited** 3 books, participated in editing 3 books, and published more than 30 academic papers; "Specialized Diseases Specialist Traditional Chinese Medicine Syndrome History Series," "Irritable Bowel Syndrome" volume author.

Series Overview

4 Class Series
each exploring TCM and digestive health

2-Hour Lectures
including 30 minutes of Q&A

8 PDA/CEUs Available
2 credits for each class

Certificate of Advanced Training
available for live attendance of all 4 lectures

Course Schedule

WINTER/SPRING 2023

SATURDAYS
5-7 PM PST | 8-10 PM EST

FEB. 11

Gastroesophageal Reflux Disease

MAR. 11

Functional Dyspepsia

APR. 15

**Chronic Atrophic Gastritis &
Precancerous Lesions of Gastric Cancer**

MAY 20

Inflammatory Bowel Disease

Gastroesophageal Reflux Disease

CHINESE WITH SIMULTANEOUS ENGLISH TRANSLATION ◦ SATURDAY, FEBRUARY 11TH, 2023 ◦ 5-7 PM PST / 8-10 PM EST

Background

Gastroesophageal reflux disease is a disease of reflux-related symptoms and/or complications caused by the reflux of gastric contents into the esophagus. As a comprehensive treatment method, traditional Chinese medicine treats the condition through the combination of disease differentiation and syndrome differentiation, which has certain unique advantages. This course will provide practitioners the rare opportunity to learn directly from a renowned TCM gastroenterologist and explore the most effective and practical ways to treat gastroesophageal reflux disease.

Outline

1. Definition and epidemiology of gastroesophageal reflux disease
2. Chinese and Western medicine diagnosis of gastroesophageal reflux disease
3. Understanding gastroesophageal reflux disease in Traditional Chinese Medicine
4. Methods of Chinese medicine treatment for gastroesophageal reflux disease
5. Herbal treatment guidance and clinical experience sharing

Functional Dyspepsia

CHINESE WITH ENGLISH SIMULTANEOUS TRANSLATION ◦ SATURDAY, MARCH 11TH, 2023 ◦ 5-7 PM PST / 8-10 PM EST

Background

Functional dyspepsia is one of the most common digestive system conditions in clinical practice and the incidence rate is increasing year by year, which greatly affects the quality of life of patients and treating functional dyspepsia requires a large amount of medical resources. Traditional Chinese medicine has certain advantages in alleviating the symptoms and reducing the recurrence of this condition. Professor Huang will share his clinical experience about how to treat and manage this common digestive condition.

Outline

1. Definition and epidemiology of functional dyspepsia
2. Chinese and Western medicine diagnosis of functional dyspepsia
3. Understanding of functional dyspepsia in Traditional Chinese Medicine
4. Methods of Chinese medicine treatment for functional dyspepsia
5. Herbal treatment guidance and clinical experience sharing

Chronic Atrophic Gastritis & Precancerous Lesions of Gastric Cancer

CHINESE WITH SIMULTANEOUS ENGLISH TRANSLATION ◦ SATURDAY, APRIL 15TH, 2023 ◦ 5-7 PM PST / 8-10 PM EST

Background

Chronic atrophic gastritis is a recurrent type of chronic gastritis and is difficult to heal completely. When gastric precancerous lesions occur, the risk of canceration increases accordingly. Traditional Chinese Medicine pays special attention to overall regulation, syndrome differentiation, and treatment, and has certain curative advantages in alleviating patients' dyspepsia symptoms, enhancing the quality of life, and improving gastroscopy and pathological lesions. Professor Huang will teach practitioners how to preventatively treat gastric precancerous lesions with Chinese medicine treatment.

Outline

1. Definition and epidemiology of chronic atrophic gastritis and gastric precancerous lesions
2. Diagnosis of chronic atrophic gastritis and gastric precancerous lesions by traditional Chinese and Western medicine
3. Understanding of chronic atrophic gastritis and gastric precancerous lesions in Traditional Chinese Medicine
4. Methods of Chinese medicine treatment for chronic atrophic gastritis and gastric precancerous lesions
5. Herbal treatment guidance and clinical experience sharing

Inflammatory Bowel Disease

CHINESE WITH SIMULTANEOUS ENGLISH TRANSLATION

SATURDAY, MAY 20TH, 2023

5-7 PM PST / 8-10 PM EST

Background

Inflammatory bowel disease is characterized by inflammation of the digestive tract lining. At present, Western medicines require long-term drug treatments which lead to adverse reactions and only temporarily alleviate symptoms. Relevant studies in recent years have shown that traditional Chinese medicine and integrative medicine have fewer side effects and long-term curative effects in the treatment of IBD. Dr. Huang will share his abundant clinical expertise and treatment protocols for this common yet difficult-to-treat digestive condition.

Outline

1. Definition and epidemiology of inflammatory bowel disease
2. Chinese and Western medicine diagnosis of inflammatory bowel disease
3. Understanding of inflammatory bowel disease in Traditional Chinese Medicine
4. Methods of Chinese medicine treatment for inflammatory bowel disease
5. Herbal treatment guidance and clinical experience sharing

Certificate of Advanced Training in TCM Digestive Health

- A certificate of advanced study is available to registrants/participants of all 4 live sessions
- To acknowledge professional development through specialty training in digestive health
