

milestone cards

how to print me

These milestone cards have been designed to be printed A6 (105x148mm). We recommend printing at your local printer and choosing a paper stock of decent thickness (200gsm and up) for the best result.

We know they grow up so quickly (but truly they do!) and now you can capture those special moments in style.

NOTE: No need to print this page!

Milly + Coup

hello world!

My name is

I was born

and I weighed
