*It's time to 'welcome home' your clients with good taste?*

# WHY AFTER HOURS GIFTING?

## WE ARE YOUR 'GIFTING PARTNER'

We view ourselves as your gifting partner, not just another supplier. We work closely with you to understand your needs and preferences thus providing a high-quality gift-giving experience that aligns with your brand and values.

### 1/ Personalisation

Our bespoke gifting process is designed to be unique and personalized to create a thoughtful and memorable gift-giving experience.

### 2/ Customisation & Branding

We can incorporate custom branding and messaging into the gift, helping to reinforce your brand identity and showcase your business.

### 3/ Expertise

With years of experience in gift-giving, we have a deep understanding of what makes a great gift and can provide guidance and recommendations throughout the gift-giving process.

### 4/ Convenience

We take care of the logistics and delivery of the gift, including storage of branded packaging and gifts, coordination of gift delivery, and bulk delivery to your office if applicable, saving you time and effort.

### 5/ Premium Gifts

We work with a network of suppliers to source high-quality gifts that to ensure you're gifting more with less.

### 6/ Sustainable Packaging

Because more waste is not a gift our environment needs. We take sustainability seriously and are committed to reducing our impact on the environment. That's why we've implemented a range of eco-friendly packaging solutions for our products.

# OUR PROCESS

# 1/ Gift Selection

The gift selection process involves considering several factors, including the demographics of the recipient(s), your budget, and the desire to create a memorable gifting experience. We do this through two key activities:

- Discovery phase: We begin by reviewing any previous or current gifting for the recipient(s) in question, gathering information about their tastes, preferences, and any gifts that they may have already received. As well as, whether a tiered gifting approach is required - each tier would have a different budget and set of gift options.
- Gift-giving proposal: Based on the information gathered during the Discovery phase, we create a gift-giving proposal that presents a range of gift concepts tailored to the recipient(s) and are unique to your business. The gift-giving proposal includes a detailed description of each gift concept, as well as the rationale behind why each gift concept was selected. It will also include the cost of each gift, so your business can make an informed decision about which gift to select.

## 2/ Make It Yours

Incorporating your branding and message into gift-giving is a great way to showcase your business. This can be achieved in a number of ways, such as:

- Custom packaging: Customising the packaging of the gift with your company's logo and colours can create a cohesive and professional look.
- Branded Gifts: Including branded items in the gift can serve as a subtle reminder of your business and its offerings.
- Personalised notes: Adding a personalised note with your company's branding and message can show that you value the recipient(s) and their relationship with your business.

By incorporating branding and messaging into gift-giving, you can create a memorable and impactful experience for the recipient(s) while also showcasing your business and its offerings.

### 3/ Logistics

The logistics process is designed to be seamless and efficient ensuring that the gifts are delivered on time and in good condition. We have the capability to manage the storage of branded packaging and gifts at our warehouse, coordination of gift delivery direct to clients and bulk delivery to your office if applicable.

- Storage of branded packaging and gifts: If you have chosen to incorporate custom branded packaging and gifts, these items will typically be stored at our warehouse. Our friendly operational team will be responsible for managing and organising the inventory of these items to ensure that they are easily accessible when needed.
- Coordination of gift delivery: Our operational team will coordinate the delivery of the gifts. This could involve working with a courier to ensure that the gifts are delivered direct to your client or to your office to hand deliver in person.
- Bulk delivery to your office: If you have chosen to have the gifts delivered to your office for distribution, the logistics team will coordinate the bulk delivery of the gifts to your office.

Throughout the logistics process, the team will ensure that you are able to stay up-to-date on the status of the gift delivery and can provide any necessary feedback or updates as needed.
