

LA MARZOTTO

linea pb

a heavy duty workhorse -
capturing the past, envisioning
the future.

The Linea PB, designed by and named in recognition of Piero Bambi, introduces a new level of performance, reliability, and craftsmanship.

The Linea PB features the iconic La Marzocco polished stainless steel body, updated with simplified lines and a lower profile, equipped with exclusive, user friendly interface software that gives the barista direct functional control over boiler temperature, brewing volume, hot water tap dose, auto-back flush as well as other options. The Linea PB's lower profile and increased work area also make it practical, without abandoning world renown Italian design.

THE OLD BARRACKS
COFFEE ROASTERY

linea pb features and specifications

Mechanical Paddle

The mechanical paddle is inspired by the original mechanical group used on the La Marzocco GS – the first dual-boiler espresso machine with saturated groups (1970). This valve system enables the barista to saturate the coffee with low pressure (line pressure) water before applying the full 9 bars of pressure. While more complex, this dynamic system allows the barista to control the variable of pre-infusion and reduce channeling for a more balanced extraction.

Dual PID (coffee and steam)

Allows you to electronically control coffee and steam boiler temperature.

Dual Boilers

Separate boilers optimize espresso brewing and steam production.

Saturated Groups

Ensure unsurpassed thermal stability, shot after shot.

Piero Group Caps

Water never leaves the coffee boiler during the brewing process, eliminating instability.

Eco Mode

Can be programmed to enter stand-by mode, improving energy efficiency.

Ruby Flow Restrictors

Ruby flow restrictors resist scale formation and erosion.

Digital Display

Intuitive programming makes it easy to adjust machine parameters.

USB

Making it possible to update the firmware.

Portafilters & Precision Baskets

Stainless steel portafilters and precision baskets improve your cup quality and consistency.

Cup Warmer*

Maintain espresso and cappuccino cups heated at a proper temperature.

Barista Lights*

Led lighting allows you to focus on your extraction and the cup.

High Legs*

Makes it easier to access beneath the machine.

* Special Order

	2 Groups	3 Groups	4 Groups
Height (cm/in)	53,3 / 21	53,3 / 21	53,3 / 21
Width (cm/in)	71 / 28	95 / 37,4	119 / 46,9
Depth (cm/in)	59 / 23	59 / 23	59 / 23
Weight (kg/lbs)	61 / 134,5	77 / 169,8	117 / 258
Voltage	200V Single/3 Phase	200V Single/3 Phase	200V Single/3 Phase
	220V Single/3 Phase	220V Single/3 Phase	220V Single/3 Phase
	380V 3 Phase	380V 3 Phase	380V 3 Phase
Wattage Elements	4600	6100	8000
Coffee Boiler Capacity (liters)	3,4	5	6,8
Steam Boiler Capacity (liters)	7	11	15
