Protein bars

Nutritious protein bars make even snacking on the go healthy. Whey protein concentrate is highly digestible and makes it easy to satisfy your hunger. The bar contains no sugar. A pleasant sweet taste is given by a natural herbal sweetener «stevia».

The range of bars is very wide and varied. These include not only classic bars with 20 grams of protein per serving, but also chocolate bars, waffle bars, crunch bars and low-calorie, low-carb slim bars.

Protein cookies and pancakes

A great alternative for those who prefer the usual form, but expect high functionality and benefits from the dessert. The cookies are based on whey protein concentrate and enriched with fiber, which promotes healthy digestion.

Contains no sugar - only safe sweeteners. The dough contains vitamin-rich coconut oil and, depending on the product line, collagen. In products designed for vegans, whey protein is replaced by pea and pumpkin protein, so the use of such cookies will not only enrich the diet, but also allow to eliminate lactose.

This powerful concentrate with a total caffeine content of 440 mg significantly increases performance

Powerful fat burner, indispensable in low-calorie diets to preserve the energy potential of the body, reduces appetite. Affecting the CNS, it is used to improve concentration, as well as to increase the power of muscle contractions. Does not irritate the mucous membrane of the stomach, as the main source of caffeine used as a natural, plant extract of guarana. 440 mg of caffeine replaces an average of 5 cups of coffee without milk, which is a safe dosage per day for humans.
