WHY TOE SOCKS WILL MAKE YOU CRAVE GOOD SHOES.

Surely you have wondered: Do I need more space in my shoes with toe socks?

The answer is: no - but also yes.

With toe socks you don't need more space than your feet normally need. But if you've been squeezing your feet into shoes that are too tight, you'll start to notice it now at the latest: The toes become more mobile, are nicely separated from each other and will want the space to keep it this way.

Knitido® feet therefore like shoes that meet their requirements - just like socks do.

BÄR barefoot shoes are just that kind of footwear.

Here's what they can do:

- ✓ they have a lot of space in the front for the toes
- ✓ they have zero heel, allowing your feet to assume a natural posture
- ✓ they have a flexible sole that lets your feet roll naturally while walking.

What's more, they're **handmade**, use high-quality materials, and will go along with whatever your feet are up to - whether it's looking good in everyday life, hiking, or playing sports.

In short: high quality standards, just like the ones we set for ourselves.

EVERYDAY

TABI

TWO INSTEAD OF FIVE: TABI

If five-toe socks are too much effort for you to put on... reach for the [classic split toe socks](#):

- ✓ The [big toe](#) is [separate](#) and as flexible as in toe socks
- ✓ Quick and [easy to put on](#)
- ✓ Knitted for a perfect fit, [with heel](#)

Try tabis in everyday life, in your shoes or in toe separators.

TIP: Especially for those suffering from [bunion](#), tabi socks are a relief and an easy way to get used to toe socks.

MERINO MIX

THERE IS NO SUCH THING AS WRONG WEATHER ...

... at least not with merino wool.

🌍 Merino wool **regulates body temperature**, both in cold and heat: in summer it has a cooling effect, in winter a warming effect.

🌍 Merino wool binds moisture better than other materials and **keeps your feet dry**.

The **Merino & Cotton socks** are available as **tabi socks** in midi length and as **five-toe socks** in different lengths.

LIKE BAREFOOT, ONLY BETTER: YOGA SOCKS FOR YOUR WORKOUT.

Better to practice barefoot or to wear socks?

With the open yoga cuffs you have the best of both:

- ✓ **Full mobility** - Separate open toes and an open heel can move completely freely and grip the ground.
- ✓ **With grip** - An anti-slip coating under the ball of the foot gives you a firm foothold.
- ✓ **Like a second skin** - Tailored exactly to the foot, with no irritating seams and no pinching cuff.
- ✓ **Made of organic cotton** - Made of high-quality, lightweight and finely knitted organic cotton.

SUPPORT FOR HALLUX VALGUS

Hallux valgus or bunion is a **crooked position of the big toe**: in many cases, this entails a painful inflammation of the big toe joint.

Knitido Dr. Foot® Hallux Valgus toe Socks and footies

- ✓ **relieve** weakened muscles and ligaments
- ✓ relieve the **metatarsophalangeal joint** of the big toe
- ✓ **mobilize** your toes and promote the strengthening of your feet

FREQUENTLY ASKED QUESTIONS Q&A

Q I just had corrective surgery on my bunion: can I wear Dr. Foot® toe socks?

A After hallux valgus surgery or with diabetes, Knitido hallux valgus compression bands are not suitable. The compression band might be too tight for swollen and healing feet.

Q Can I wear the Hallux Valgus compression band at night?

A Yes, of course, the compression band is particularly suitable for this - or you can wear it under another sock. But be aware: How strong the compression is on the foot depends on your personal feeling. Try them first during the day.

How to find your sock size

You have exactly the size that doesn't fit in any box? Leave tape measure and calculator aside, finding the right socks is easy.

1

IS THERE A MENTION ON THE PRODUCT?

If a model fits smaller or larger, **it is written in the description**. Then just take the recommended size.

2

DO YOU HAVE LONG TOES?

Then better choose **the larger size**.

3

OTHERWISE THE PRINCIPLE APPLIES:

Close-fitting is better. If you are between sizes, it is better to choose the smaller size - the elastane in the sock provides the necessary adjustment.

HOW TO PUT ON TOE SOCKS CORRECTLY - AND TAKE THEM OFF

Don't worry, putting on toe socks is not an art. At most, it takes a little longer the first few times.

In our short [explanatory video](#) you'll find everything you need to know about putting on toe socks properly.
