SHARKCOIN

WHITEPAPER

SHARKCOIN

Our goal but also yours

SHARKCOIN ($SHARKCOIN) is a BEP20 token issued on Binance Smart Chain whose mission is to pass on donations to people in need, while paying dividends to the holders. Each time a SHARKCOIN is redeemed, a charity of your choice on Binance Charity receives donations on a daily basis. SHARKCOIN aims to transform the crypto-currency industry by giving back while creating a coin that benefits charities and its holders. SHARKCOIN is a community and fair launch token, with SHARKCOIN holders sharing common values and a common mission to fight global inequality and misery together.

SHARKCOIN

OUR STORY

Our leadership team is as passionate about the long-term growth of SHARKCOIN's value as we are about the positive charitable impact we collectively have on the world by continuing to develop our seemingly limitless potential. We focus on full transparency, sustainable strategic growth decisions and innovative marketing campaigns that will allow the world to fall in love with SHARKCOIN as much as we do. In addition to daily updates on all of our social channels, our leaders (including our CEO) are very frequently available on the SHARKCOIN Telegram for you to ask questions, give feedback, offer ideas, and join us in our lunar mission.

Moreover we were tired of seeing projects with NO FOUNDATION, NO PURPOSE, NO STRUCTURE, NO COMMUNITY and ZERO MARKETING and a team that disappeared overnight... that's why we created SHARKCOIN, a long term interactive project with a real goal to help humanitarian projects all over the world and with a reward system for the community!

PUMP IT

PancakeSwap

Pancakeswap is a decentralized exchange (DEX) based on Binance Smart Chain to exchange BEP-20 tokens. Pankcakeswap will allow the community to exchange their BNB for SHARKCOIN.

SHARKCOIN is a community driven fair launch token, SHARKCOIN holders share values and have a mission to help humanitarian projects around the world, with a dividend system for holders!
SHARKCOIN

TOKENOMICS

SHARKCOIN will launch on December 5, 2021 with a total supply of 1,000,000,000,000. At SHARKCOIN, we have built a token that rewards both holders and charities. Each SHARKCOIN transaction (buy or sell) is subject to an automatic 15% transaction fee. SHARKCOIN creates 3 simple functions with this transaction tax:

3% - LOCKED ON LIQUIDITY POOL

4% - BNB REFLECTION FOR HOLDERS

3% - CHARITY

5% - MARKETING

3% **4%** **3%** **5%**

● LP Locked   ● BNB Dividends   ● Charity   ● Marketing

FAIR LAUNCH

TOTAL SUPPLY : 1,000,000,000,000

TEAM / PARTNER ALLOCATION: (2%) - 20,000,000,000

MARKETING ALLOCATION: (8%) - 80,000,000,000

TOKENS FOR PANCAKE LISTING (90%) : 900,000,000,000

LOCKED LIQUIDITY

Liquidity Pool Locked: 100% – Date : 12 months minimum

Initial liquidity will be locked for a minimum of 12 months to provide holders with peace of mind that the token can always be exchanged. A trusted 3rd party, DeepLock, will operate as the middle man to ensure that all raised liquidity is locked in a secure locker for the full timeframe.

CHARITY

Every day we organize a poll on our Telegram so that the community can choose which humanitarian project is most important to them among the humanitarian projects on Binance Charity that are in need of funding. We distribute daily directly in BNB to the humanitarian project chosen by the SHARKCOIN community. You will be able to see the tracking and details of each transaction directly on the Binance Charity website, as well as on the BSCScan and see the impact of this donation thanks to the blockchain technology.

SHARKCOIN

BNB REFLECTION

The way it works for holders:

You buy tokens and hold them, every 60 minutes you'll automatically receive BNB in your wallet. Not a single action is required. Keep in mind that a holder needs to own 300 000 tokens to receive the hourly redistribution.

- THE CONTRACT KEEPS TRACK IN AN ARRAY OF ALL TOKEN HOLDERS

- THE CONTRACT KEEPS AN INDEX INTO THE ARRAY FOR PROCESSING

- EVERY TRANSACTION PROCESSES A CERTAIN NUMBER OF USERS, DEPENDING ON THE TRANSACTION SIZE (BIGGER TOKEN TRANSFERS CAN PROCESS MORE, SINCE THE GAS WILL STILL BE PROPORTIONALLY LESS THAN THE VALUE OF THE TOKENS)

- THE TOKEN IS BASED ON A DIVIDEND-PAYING TOKEN STANDARD, WHICH MEANS ALL BNB THE CONTRACT GAINS WILL BE SPLIT EQUALLY PROPORTIONALLY TO THE TOKEN HOLDERS.

- WHEN A USER IS PROCESSED, THE CONTRACT CHECKS HOW MANY WITHDRAWABLE DIVIDENDS THEY HAVE, AND IF IT IS ABOVE THE MINIMUM THRESHOLD FOR AUTO-CLAIMS, WILL EITHER AUTOMATICALLY CLAIM THOSE DIVIDENDS FOR BNB, OR AUTOMATICALLY BUY-BACK TOKENS FOR THEM.

This system is fully automated and doesn't add minimal gas fees proportional to value transferred. The number of holders processed through each transaction is dynamic and based on transaction size. Holders will receive dividends from the queue based on their position in the array. It's a fair system, fully automated. Minimum token balance is 300,000 SHARKCOIN tokens to receive BNB distributions.

HODL

SHARKCOIN

MARKETPLACE

We plan to create three marketplaces: the merch marketplace, the NFT marketplace and the SHARKCOIN token marketplace. We want to create a strong brand image and a community based on this brand image over several years, where new ideas will be added to the project.

UTILITY

We will be offering ultra-rare and personalized NFTs to the best SHARKCOIN holders and will be providing use and other benefits to the SHARKCOIN token-holding community.
