

Endothelial Protect Px

Endothelial Protect Px offers a high-quality formula focused on supporting cardiovascular health and healthy oxidation pathways in the cardiovascular system. **Endothelial Protect Px** is a unique formula that features a blend of plant extracts high in polyphenols along with the nutrient cofactor Vitamin E. The blend focuses on supporting cardiovascular oxidative pathways, healthy endothelial function, and healthy levels of pro-inflammatory cytokines, within normal range.

Formulation Features

- 415 mg of Organic Pomegranate fruit powder extract (30% punicalagins)
- 125 mg of Vitamin E
- 90 mg of Grape seed extract, 85% total polyphenols, 25% polyphenol monomers
- 25 mg of Organic Olive fruit extract, 20% hydroxytyrosol
- 10 mg of Smoketree Extract, 80% Fisetin

Formula

Each/Chaque vegi capsule contains:

Organic Pomegranate Fruit Extract (Oynica granatum) 30% punicalagins	415 mg
Vitamin E (d-alpha Tocopheryl acetate) 59 mg AT	125 mg
Grape Seed Extract (Vitis vinifera) 85% Polyphenols	90 mg
Organic Olive Fruit Extract (Olea europaea) 20% hydroxytyrosol	25 mg
Fisetin	10 mg

Minimum Constituent Biomarker Per Dose

Punicalagins	124.5 mg
Fisetin	10 mg
Hydroxytyrosol	5 mg

Organic Herbs are Certified Organic

Other Ingredients: Vegetable Capsule (cellulose)

95% of our herbs and herbal extracts are certified organic.

Pomegranate fruit (*Punica granatum*) Pomegranate polyphenols support healthy endothelium cells function in the arteries by increasing the release of oxide (NO), reducing oxidative stress, promoting a healthy inflammatory response, while supporting blood flow and blood pressure health.

Vitamin E in the d-Alpha tocopheryl Acetate (ATA) form a more stable form of Vitamin E having a longer shelf life.

Grape Seed (*Vitis vinifera*) The phenolic rich extract of grape seed supports healthy metabolic and cardiovascular function balancing lipid metabolism and oxidation while having a beneficial effect on endothelial function and cardiovascular health.

Olive Fruit Extract (*Olea europaea*) provides polyphenols that protect blood lipids from oxidative stress and supports healthy lipid metabolism. Olive fruit extract is rich in the polyphenol Hydroxytyrosol (HT), a powerful antioxidant that supports key aspects of cardiovascular and metabolic health.

Smoketree (*Cotinus coggygria*) features the bioactive flavonoid fisetin. Fisetin helps maintain healthy mitochondrial function in the presence of oxidative stress additionally preserving glutathione supply and supporting healthy cellular metabolism. It demonstrates a significant level of nerve and brain protection along with boosting memory and new nerve cell growth.

Supplementation

- One capsule, two times per day daily or as directed by a healthcare practitioner. Can be taken with or without food.

Diet & Lifestyle

- Minimize physical and emotional stress
- Eat organic, whole foods as much as possible
- Exercise moderately and consistently
- Avoid known allergens and toxic chemicals
- Sleep 7-8 hours minimum per night
