Intense, notes of kiwi and grapefruit.

AFTER TASTE

Very fresh and long finish, with great ageing potential.

COMMENTS

This wine will develop the cold weather Riesling complexity while ageing in the bottle, always well integrated with the high acidity and long glycerine characteristics from botrytis wine.

“The search for natural acidity is intelligently realized in this wine. Exceptional ageing potential makes this a wonderful wine to keep in your collection. The balanced evolution of this wine brings forward light kerosene notes in harmony with citric and mineral elements”.
