

## Instructions: ITH Shoe Wings

### 1. Gather materials

- Embroidery vinyl
- Masking tape
- Tear away stabilizer suggested, for larger designs a stiffer stabilizer is recommended

### 2. Cut out vinyl pieces

- Vinyl pieces that are large enough to cover the design with some extra fabric that will be trimmed away at the end

### 3. Load embroidery design. Set up appropriate hoop for design size.

### 4. Cover hoop with vinyl. Run any applicable applique stitches

- Run placement stitch
- Place applique fabric down
- Run tack down stitch
- Trim excess applique fabric
- Run remainder detail stitches

### 5. Run primary design stitches (will vary with design)

6. Take front design hoop and flip over so wrong side is facing up. Tape down back piece with wrong sides together, making sure your back piece covers the complete front piece.

### 7. Run final outline stitch to combine pieces.

8. Remove from hoop, trim excess stitches, trim excess fabric (leaving ~2mm around stitches) and remove tear away stabilizer where possible. Use an eyelet punch to bunch holes into placement stitches and insert metal eyelets or use small scissors to carefully cut away fabric as needed.
