

Air Stones

Aqua One Air Stones provide ample oxygen and water movement, assist in releasing carbon dioxide build-ups and add an aesthetically pleasing element to your aquarium.

Suitable for Coldwater and Tropical

Features & Benefits:

- Provides ample oxygen and water movement within your aquarium
- Assists in releasing carbon dioxide build-up
- Releases a constant stream of fine small bubbles that will not disturb your aquatic inhabitants
- Encourages healthy bacteria growth
- Adds an aesthetically pleasing element to your aquarium display
- Can attract active schooling fish and strong swimmers who often like to play with small bubble currents
- Intended to be used with an air pump, check valve and airline tubing
- Available in various sizes and styles
