

AR15 MASTER BENCH BLOCK®

SMARTLY HOLDS ALL KEY GUN PARTS TO EASILY INSTALL 14 DIFFERENT PINS.

This block is like having an extra set of hands to work on your gun build. The AR15 Master Bench Block holds 5 key AR15 components in 8 different orientations helping you to knock out and install up to 14 different pins. The no-slip coating grips your bench so it won't slide around. Clear, engraved labels tell you what component fits where, and what size punch you'll need to knock out the pins. Strong magnets immediately grasp any pin you punch out and hold it securely to the block. It even includes storage for common size pins. Work smarter... build it better!

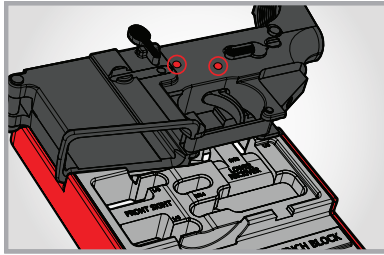

AR15

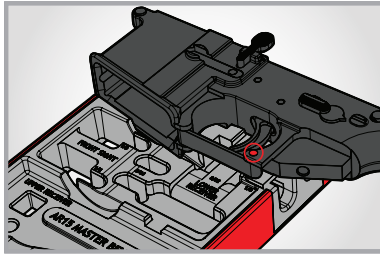

MASTER GRADE BUILD TOOL

THE AR15 BENCH BLOCK®

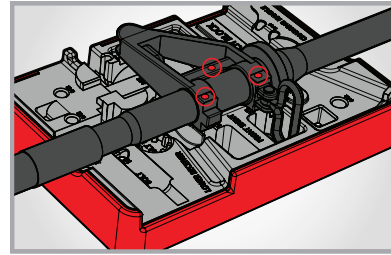

HOLDS 5 KEY GUN PARTS TO EASILY REMOVE & INSTALL PINS

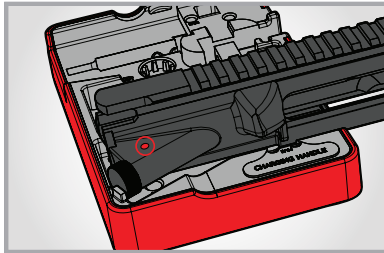

Remove trigger assembly by knocking out two 5/32" pins.

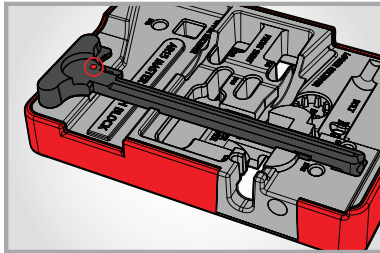

Lay receiver on right side to remove 1/8" trigger guard pin.

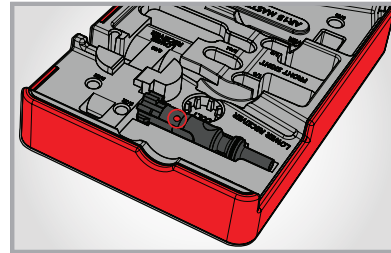

The standard A2 gas block has three removable pins: two 1/8" pins and one 5/64" roll pin.

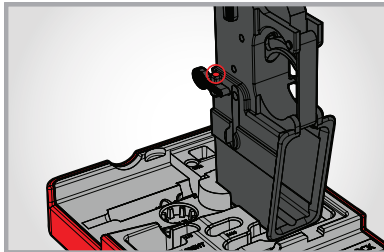

Holds upper and depresses forward assist to simplify removing 3/32" forward assist pin.

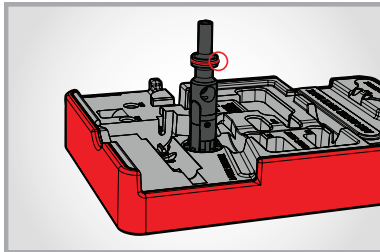

Standard charging handles have one 5/64" pin. Custom charging handles can have multiple pins.

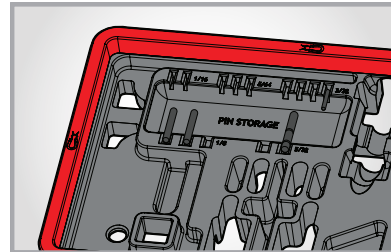

Bolt extractors have a 3/32" solid pin that can be removed by placing the bolt on its side as shown.

Holds lower in vertical position to remove 3/32" bolt catch roll pin.

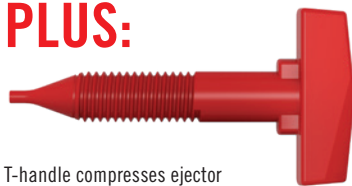

Place the bolt in the vertical position to install the three gas rings.

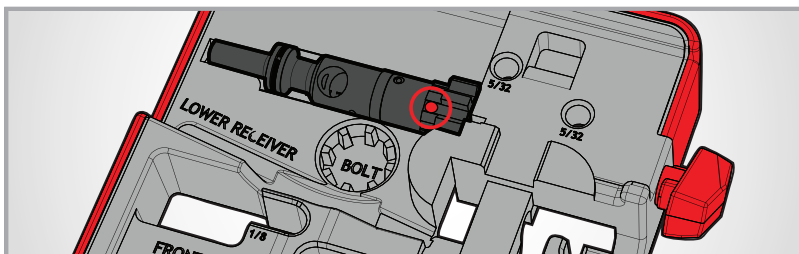

Securely stores up to 14 of the most commonly lost pins.

PLUS:

T-handle compresses ejector to easily remove ejector pin

T-Handle acts as third hand to compress ejector for easy ejector pin removal.

 **WARNING:** This product can expose you to chemicals including 4,4'-Methylenedianiline, which is known to the state of California to cause cancer and birth defects or reproductive harm. For more information, go to www.P65Warnings.ca.gov.
