## WASTE DISPOSAL POLICY

### Summary

As a company committed to reducing our environmental impact we use the following priorities to assess our waste strategy.

1. Reduce usage
2. Recycle (in house)
3. Energy Reclamation from waste (in house)
4. Recycle (external contractor)
5. Energy Reclamation from waste (external contractor)
6. Landfill

We review our overall waste management strategy twice a year, and we have quarterly "Reduce & Recycle Reviews" to see where improvements can be made within the business.

### Waste Streams

Material	Disposal Method
Waste timber	Recycle in house
Waste wood sheet materials	Re-use or recycle with external contractor
General waste inc. used PPE	Energy reclamation
Non-hazardous industrial waste	Energy reclamation
Cardboard / paper	Re-use in house or recycle with external contractor

### Approved Contractors

We assess each contractor using the following priorities.

1. ESG policies
2. Travel distance to waste processing site
3. Service record
4. Pricing and availability

# FORESSO<sup>®</sup>

Waste Stream	Contractor
Wood waste	Jericho Foundation (The Wood Shack)
General waste	Veolia
Chemical waste	Veolia / Red Industries
