FILM SPLITTER WITH ROPING DEVICE

Choose between normal full web wrapping or be able to easily change to wrap product leaving open areas for air flow by pushing a simple lever.

FILM SPLITTER WITH MANUAL ROPING DEVICE BENEFITS

- Wrap using the full width of either 20" or 30" film
- Split the film with a simple push of a lever into:
 - 20" film into (2) 10" bands
 - 30" film into (3) 10" bands
- Adjust each band to the desired width
- Pushing a simple lever engages the Film Splitter
- Creates air flow for products needing to breathe
- With the pallet wrapper controls you can select the number of ropes/bands to be applied and the position on the load
- The rope adds strength to the film to help eliminate tearing on sharp pallet corners or product

Shown splitting 30" film into (3) bands
