Novo Nordisk developed the first prefilled, preloaded, multidose delivery pen. The pen comes already filled with Norditropin ®. You don't have to fill the pen, load medicine, change cartridges, or change batteries. This is great because there aren't a lot of parts to keep track of: just the pen, pen cap, and needles. Learn about our needles and pen storage requirements—Norditropin. you have cancer or other tumors; you are allergic to somatropin or any of the ingredients in Norditropin. Novo Nordisk provides patient assistance for those who qualify. Please call 1-866-310-7549 to learn more about Novo Nordisk assistance programs.

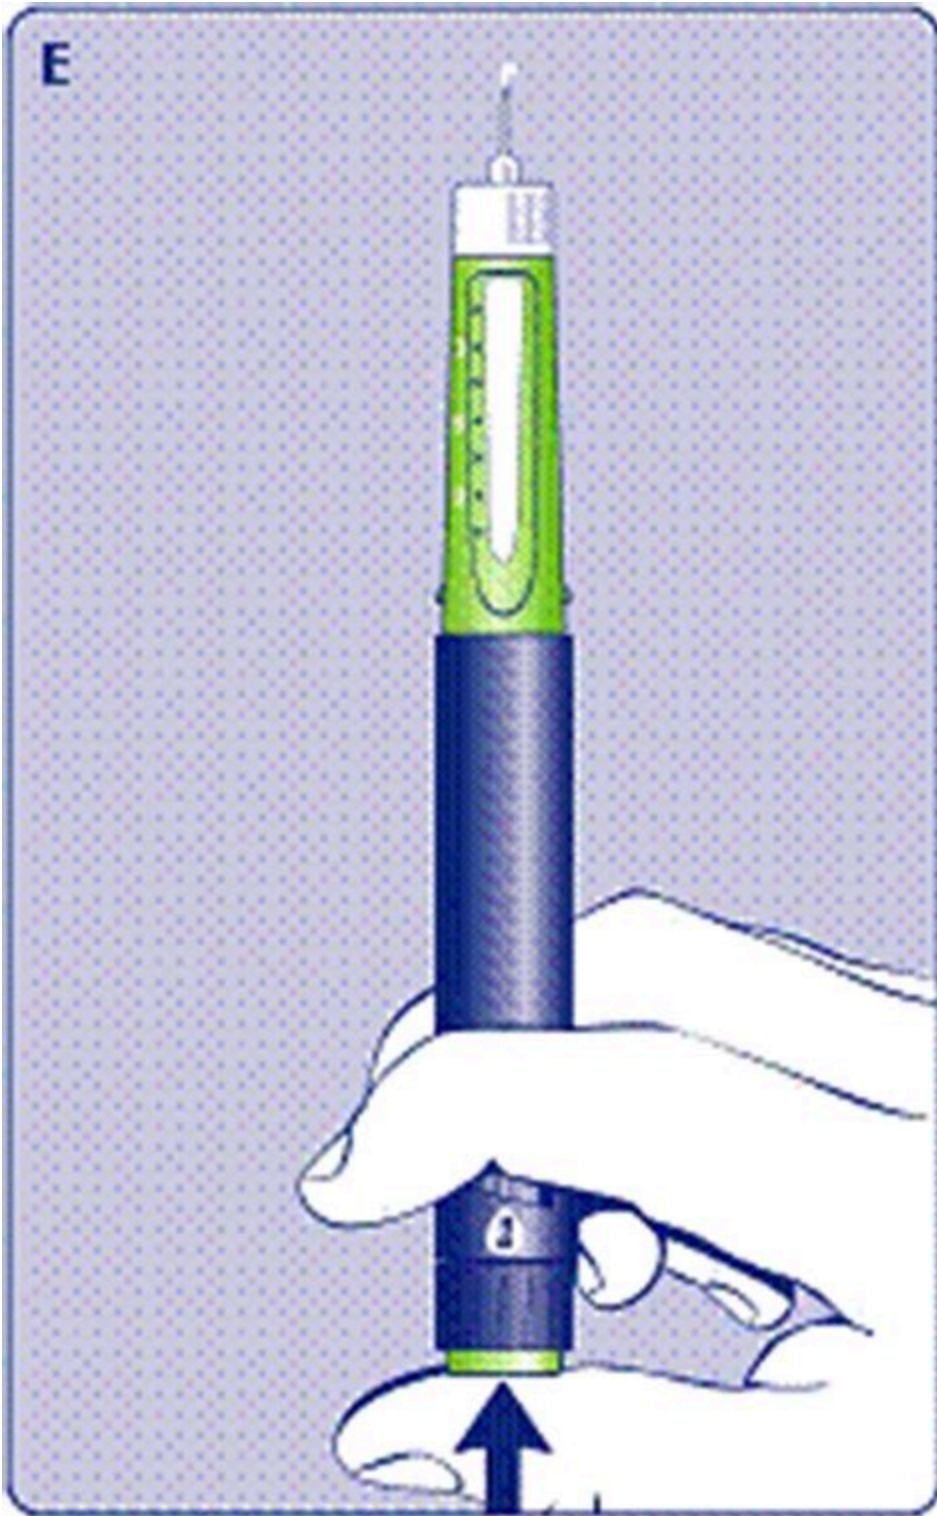

About The Norditropin HGH Pen. Norditropin HGH Pen® is a somatropin pen device containing Human Growth Hormone - HGH [somatropin rDNA origin] manufactured by Novo Nordisk. It contains lyophilized human growth hormone powder and sterile injection solution together in a separate compartment which are mixed in the pen automatically before injections.

Norditropin® (somatropin) injection is a recombinant human growth indicated for treatment of pediatric patients with growth failure due to inadequate secretion of endogenous growth hormone (GH), short stature associated with Noonan Syndrome, short stature associated with Turner syndrome, short stature born small for gestational age (SGA) with no catch-up growth by age 2 to 4 years, Idiopathic.
