PHARMA TEST P 100 Ampules. Testosterone Propionate. 100 mg/ml. 10. View more info >.

Pharmacom Labs PHARMA Nan D300 is presented in a 10-milliliter multidose vial and reportedly contains 300 milligrams of nandrolone decanoate (aka Deca Durabolin) per milliliter according to the label and packaging. Samples of this product were purchased from a European-based internet source between the dates of February 1, 2016 and March 15, 2016. [check it out](#)

Boldenone was developed mainly for dystrophy treatment and to increase bone weight and density in osteoporosis. Boldenone is an injectable long-term steroid that exhibits strong anabolic and moderately androgenic properties. Low androgenic properties enable boldenone for women to use. Virilization occurs rarely, as compared to other steroids.

The D. gave strong lower back & calf pumps. Uncomfortable, but showed it was the real deal. Test & Deca worked well. All vials contained slightly more than 10 mls which was nice. The proviron seemed to be as good as stuff made by Bayer. I shall definitely buy from Pharmacom again in the future

I would certainly recommend Pharmacom Deca 300, and i would not read too much into the online lab results for the Deca, especially since they were old results. In my opinion, the Pharmacom Deca is clean, sterile, accurately dosaged and as described. The only complaint is the price at £39.99. Pharmacom Labs got exclusive distributor in Brazil & Paraguai.
