Rainforest[®] Cages

Our premier bird cage brand - Rainforest Cages. With attention to the most important details and providing housing for Finches to Macaws we have something for every bird. Small bird cages like the Costa Rica with a large flight door and the Mini Santa Fe with an opening roof, bird safe locks and of course as for all of our cages, bird friendly paints to ensure a safe home for all birds.

Between our staff we have decades of experience keeping and breeding birds, experience we use every day to design and improve our range of cages. Rainforest Cages are powder coated to the highest standards ensuring a metal finish better than any other cage you will see due to our Avi-Coat bird and animal safe paints. We really do have something for every bird.

Our Premium bird cage brand - Liberta Cages, acquired in 2016 Liberta has been a long established and popular name for pet cages and one that compliments Rainforest Cages. We believe having the best cages sometimes means there is a need for a supporting brand to offer something a little different but still with good design and manufacturing. Again all Liberta Cages use bird friendly paints to ensure a safe home for all birds.

We Believe Liberta Cages offer one of the most complete premium bird and animal cage ranges you will find. Leading models with a great range of colours and features ideal for any home.
