

The Pioneer of LED Sterilization

INUJ® UVC LED S-BOX

S-Box
User Manual

INTRODUCTION

This is a fast sterilising storage box powered by UV LED technology. One-click to achieve 99.9% sterilisation rate in just 180 Seconds.

HOW TO USE

1. Unzip and place the partition holder inside.
2. Put into dry items that are to be sterilized, and keep them filled without overlapping.
3. Zip up and plug in power adaptor.
4. Click the button to start the quick sterilization. The indicator will keep flickering for 3 mins until sterilization completes.
5. Take out items when the process completes with indicator stop flickering.

APPLICATION

Sterilisation for any of surfaces, such as shaver, nail scissors, glasses, cosmetic tools, etc.

SAFETY PROTECTION

Built-in particular safety switch, the UV LED light will be shut off once the sterilizing box is opened.

STERILISATION PRINCIPLE

UVC LED light kills bacteria by destroying DNA or RNA, to stop them from reproducing and generating.

UVC LED DEODORISATION

UVC waves can deodorize by decomposing the molecular structure of odor.

INTRODUCTION OF BACTERICIDAL FACTORS AND MICROORGANISM CATEGORIES

The main bactericidal factor and its intensity: UVC light, the average irradiance at a vertical distance of 13 cm below the top UVC LED is 100µW/cm² killing microorganisms: Escherichia coli, Staphylococcus aureus.

INDICATOR STATEMENT

SN	Working Status	Indicator
★	Sterilising over/Standby	Solid On
★	Sterilising	Flickering
★	Sleeping	Off

VOICE REMINDER

"Bleep"	Start sterilising
"Bleep-Bleep"	Sterilisation Complete

TECHNICAL PARAMETERS

1. Product Name: INUJ S1 UVC LED S-BOX
2. Model: S-BOX
3. Input: 24V= 650mA(Default power adaptor)
4. LED Beads: 24 pieces
5. Dimension: 240x195x150mm
6. Net Weight: 620g
7. Wavelength: 260-280nm
8. Power Supply Interface : DC
9. LED Lifespan : 10000 hours
10. TEMPERATURE : Working Temperature: 0-30°C
Storage Temperature: -20-55°C

PACKING LIST

- 1 Sterilising Bag -1
- 2 Holder -1
- 3 Power Adaptor -1
- 4 User Manual -1
- 5 Sterilisation Test Report -1

PRODUCT FEATURE

- 3-Mins Fast Sterilization.
- UVC Waves can kill almost all bacteria.
- Mercury-free, Ozone-free and Eco-friendly.

WARM TIPS

1. Zip up the bag completely before sterilizing.
 2. Click sterilizing button to activate it from sleeping mode.
 3. Keep operation away from strong magnetic field objects.
 4. Study the manual carefully and thoroughly, keep it properly.
 5. Reduce the smell of items, It will be more obvious when you sterilize for few times more according to the concentration of the odor.
- In order to improve user experience, there will be changes in product features without prior written notice, please refer to actual contents in the package.

- CHILDREN PROHIBITED
- DO NOT EXPOSE TO EYES & SKIN
- NO TRAMPLING
- NO WASHING & SOAKING

NAME AND CONCENTRATION OF HARMFUL SUBSTANCE OR ELEMENTS

Part Names	Harmful substance or elements						
	Pb	Hg	Cd	Cr(VI)	PBDE	PBB	EFUP
PCBA	x	0	0	0	0	0	10
Cables	0	0	0	0	0	0	10

O: It means that the concentration of the toxic and harmful substance in all homogeneous materials of the component is compliance with the limitation stipulated in GB/26572-2011.

X: The concentration of the toxic and hazardous substances in certain homogeneous material of the component exceeds the limitation specified in GB/26572-2011.

Note: Components marked "X" stands for no alternative technologies or components available at this stage.

The EFUP refers to the safety lifespan of using the product without hazardous material leakage under the conditions specified in the manual.

- 5 For the battery : 5 years EFUP under normal use conditions
- 10 For the product : 10 years EFUP under normal use conditions

WARRANTY

Warranty Details

Thank you for purchasing our product. In order to offer you good experience and protect your rights, we provide after-sales service in accordance with regulations & requirements by MII and AQSIQ.

The following circumstances are not covered by warranty:

- Warranty expires.
- Malfunction or damage resulted from failure to use, maintain or keep the machine as instructed by the User Manual.
- Disassemble the machine by customers without permission.
- Malfunction or damage caused by human errors (such as misuse, collision or wrong voltage input).

Product Model: _____ Date of purchase: _____
Dealer: _____ User name: _____
Phone number: _____
User address: _____

- ▲ This voucher serves as an important evidence to resort for after-sales service and shall be kept safe.
