Ultimaker S5: Declaration of Safe Unattended Professional Use

For the following:

Product: 3D printer

Model: Ultimaker S5 (plus add-ons mentioned below)

Manufacturer: Ultimaker B.V.

Stationsplein 32 3511 ED Utrecht The Netherlands

Tel.: +31 (0) 88 383 4000 E-mail: info@ultimaker.com

In order to assure safe use, the Ultimaker S5 printer has been extensively assessed and tested, also in combination with the Ultimaker S5 Air Manager (optional add-on):

- Risk assessment in accordance with ISO 12100:2010.
- Assessment and tests by an independent accredited test lab in accordance with:
 - o IEC 62368-1:2014, CB scheme
 - Including known national differences: EU, USA, CAN, Japan, AUS/NZ
 - Differences for other countries (including but not limited to China, South Korea, Israel, and Taiwan) were checked but no differences were reported
 - CSA/UL 62368-1:2014
- Extensive functional testing at Ultimaker and historic data on similar Ultimaker printers and technology

Taking into account:

- The above-mentioned tests and assessments
- All precautions and prescribed actions for installation, operation, and maintenance from the latest version of the manual (see: support pages at <u>ultimaker.com</u>)
- The use of Ultimaker branded filaments

Ultimaker hereby declares that the specified printer is safe for unattended (overnight) use.

The technical documentation is kept at the Manufacturer's address.
