

SAFETY DATA SHEET

KLONDIKE SAE 30 Non-Detergent Oil

1 Identification

Product Identifier	KLONDIKE SAE 30 Non-Detergent Oil
Product Code	SAE 30 Non-Detergent Oil
Other means of identification	
Synonyms	No data available
Recommended use and restrictions on use	
Recommended use	Form Oil
Restrictions on use	Uses other than those described above
Initial Supplier Identifier	KLONDIKE Lubricants Corporation
	3078 275th Street
	Langley, BC, V4W 3L4
	Canada
Telephone	General information 1-877-293-4691
Website	www.klondikelubricants.com
Email	info@klondikelubricants.com
Emergency phone number	Chemtrec (Within US) 1-800-424-9300 Chemtrec (International) 1-703-527-3887

2 Hazard identification

Classification of the hazardous product, namely the appropriate category or subcategory of the hazard class identified in Subparts 2 to 19 of Part 7 or Subparts 1 to 11 of Part 8, or a name that is its substantive equivalent, or for Subpart 20 of Part 7 and Subpart 12 of Part 8, the category of the hazard class or a description of the identified hazard

Not classified as hazardous under WHMIS 2015

Information elements referred to in section 3 of Annex 3 of the GHS and in paragraphs 3(1)(d) to (f) of these Regulations for each of those categories or subcategories. If the required information element is a symbol, either the name of the symbol or the symbol itself may be used

Hazard statements Not applicable

Other hazards known to the supplier with respect to the hazardous product

Physical hazards not otherwise classified None Known

Health hazards not otherwise classified None Known

3 Composition/information on ingredients

Chemical Name	Common name and synonyms	CAS registry number and any unique identifiers	Concentration
Petroleum distillates, hydrotreated heavy naphthenic	No data available	64742-52-5	100

4 First-aid measures

A description of necessary first aid measures, subdivided according to the different routes of exposure (inhalation, ingestion, skin and eye contact)

Inhalation

Remove to fresh air. If breathing is difficult, have a trained individual administer oxygen.

Eye contact

No data available

Skin Contact

No data available

Ingestion

No hazard in normal industrial use. Do not induce vomiting. Seek medical attention if symptoms develop. Provide medical care provider with this SDS.

The most important symptoms and effects, whether acute or delayed

None Known

An indication of immediate medical attention and special treatment needed, if necessary

No additional first aid information available.

5 Fire-fighting measures

Suitable and unsuitable extinguishing media

Suitable extinguishing media

Use alcohol resistant foam, carbon dioxide, or dry chemical when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the surface of the fire. Do not direct a stream of water into the hot burning liquid.

Unsuitable extinguishing media

No data available

Specific hazards arising from the hazardous product, such as the nature of any hazardous combustion

Material may be ignited only if preheated to temperatures above the high flash point, for example in a fire.

Hazardous Combustion Products

Carbon dioxide, Carbon monoxide

Special protective equipment and precautions for firefighters

Do not enter fire area without proper protection including self-contained breathing apparatus and full protective equipment. Use methods for the surrounding fire.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures

Methods and materials for containment and cleaning up

No health effects expected from the clean up of this material if contact can be avoided. Follow personal protective equipment recommendations found in Section 8 of this SDS.

Prevent the spread of any spill to minimize harm to human health and the environment if safe to do so. Wear complete and proper personal protective equipment following the recommendation of Section 8 at a minimum. Dike with suitable absorbent material like granulated clay. Dispose of according to Federal, State, Local, or Provincial regulations. Used fluid should be disposed of at a recycling center.

7 Handling and storage

Precautions for safe handling

Conditions for safe storage, including any incompatibilities

Conditions for safe storage

Materials to Avoid/Chemical Incompatibility

Mildly irritating material. Avoid unnecessary exposure.

Store in a cool dry place. Isolate from incompatible materials.

Strong oxidizing agents

8 Exposure controls/personal protection

Control parameters, including occupational exposure limit values or biological limit values and the source of those values

Canada – Alberta – Occupational Exposure Limits

Chemical Name	Occupational Exposure Limits - TWAs	Occupational Exposure Limits - STELs	Occupational Exposure Limits - Ceiling
No data available			

Canada – British Columbia – Occupational Exposure Limits

Chemical Name	Occupational Exposure Limits - TWAs	Occupational Exposure Limits - STELs	Occupational Exposure Limits - Ceiling
No data available			

Canada – Manitoba – Occupational Exposure Limits

Chemical Name	Occupational Exposure Limits - TWAs	Occupational Exposure Limits - STELs	Occupational Exposure Limits - Ceiling
No data available			

Canada – New Brunswick – Occupational Exposure Limits

Chemical Name	Occupational Exposure Limits - TWAs	Occupational Exposure Limits - STELs	Occupational Exposure Limits - Ceiling
No data available			

Canada – Newfoundland & Labrador – Occupational Exposure Limits

Chemical Name	Occupational Exposure Limits - TWAs	Occupational Exposure Limits - STELs	Occupational Exposure Limits - Ceiling
No data available			

Canada – Northwest Territories – Occupational Exposure Limits

Chemical Name	Occupational Exposure Limits - TWAs	Occupational Exposure Limits - STELs	Occupational Exposure Limits - Ceiling
No data available			

Canada – Nova Scotia – Occupational Exposure Limits

Chemical Name	Occupational Exposure Limits - TWAs	Occupational Exposure Limits - STELs	Occupational Exposure Limits - Ceiling
No data available			

Canada – Nunavut – Occupational Exposure Limits

Chemical Name	Occupational Exposure Limits - TWAs	Occupational Exposure Limits - STELs	Occupational Exposure Limits - Ceiling
No data available			

Canada – Ontario – Occupational Exposure Limits

Chemical Name	Occupational Exposure Limits - TWAs	Occupational Exposure Limits - STELs	Occupational Exposure Limits - Ceiling
No data available			

Canada – Prince Edward Island – Occupational Exposure Limits

Chemical Name	Occupational Exposure Limits - TWAs	Occupational Exposure Limits - STELs	Occupational Exposure Limits - Ceiling
No data available			

Canada – Quebec – Occupational Exposure Limits

Chemical Name	Occupational Exposure Limits - TWAEVs	Occupational Exposure Limits - STEVs	Occupational Exposure Limits - Ceiling
No data available			

Canada – Saskatchewan – Occupational Exposure Limits

Chemical Name	Occupational Exposure Limits - TWAs	Occupational Exposure Limits - STELs	Occupational Exposure Limits - Ceiling
No data available			

Canada - Yukon – Occupational Exposure Limits

Chemical Name	Occupational Exposure Limits - TWAs	Occupational Exposure Limits - STELs	Occupational Exposure Limits - Ceiling
No data available			

Chemical Name	OSHA PEL	ACGIH TLV-TWA	ACGIH STEL	IDLH
No data available				

Appropriate engineering controls

Use local exhaust ventilation or other engineering controls to minimize exposures and maintain operator comfort.

Individual protection measures, such as personal protective equipment

Respiratory Protection

Respiratory protection may be required to avoid overexposure when handling this product. General or local exhaust ventilation is the preferred

Respirator Type(s)	means of protection. Use a respirator if general room ventilation is not available or sufficient to eliminate symptoms.
Eye and face protection	None required where adequate ventilation is provided. If airborne concentrations are above the applicable exposure limits, use NIOSH/MSHA approved respiratory protection.
Skin Protection	No data available
Hand protection	Not normally considered a skin hazard. Where use can result in skin contact, practice good personal hygiene. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work.
General hygiene conditions	Nitrile No data available

9 Physical and chemical properties

Appearance, such as physical state and colour	
Physical state	Liquid
Colour	Amber
Odour	Mild
Odour threshold	Not determined
pH	No data available
Melting point and freezing point	
Melting point (°C)	No data available
Freezing point (°C)	No data available
Initial boiling point and boiling range (°C)	No data available
Flash point (°C)	216
Evaporation rate	No data available
Flammability, in the case of solids and gases	No data available
Upper and lower flammability or explosive limits	
Upper flammable or explosive limit, % in air	Not established
Lower flammable or explosive limit, % in air	Not established
Vapour pressure	No data available
Vapour density	No data available
Relative density	0.92
Solubility	Insoluble
Partition coefficient — n-octanol/water	No data available
Auto-ignition temperature (°C)	No data available
Decomposition temperature (°C)	Not determined
Viscosity	143.8

10 Stability and reactivity

Reactivity	
Chemical stability	Stable under normal conditions.
Possibility of hazardous reactions	None expected under standard conditions of storage.

Conditions to avoid, including static discharge, shock or vibration
Incompatible materials
Hazardous decomposition products

Temperatures above the high flash point of this combustible material in combination with sparks, open flames, or other sources of ignition.
Strong oxidizing agents
No data available

11 Toxicological information

Description of the various toxic health effects and the data used to identify those effects

Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact) Skin contact

Symptoms related to the physical, chemical and toxicological characteristics None Known

Delayed and immediate effects, and chronic effects from short-term and long-term exposure

Immediate effects from short term exposure

Inhalation Toxicity

Harmful! Can cause systemic damage (see "Target Organs").

Skin Contact

Likely to be non-irritating to skin based on animal data.

Eye Contact

This material is likely to be non-irritating to eyes based on animal data.

Ingestion Toxicity

Estimated to be > 5.0 g/kg. No hazard in normal industrial use.

Delayed and chronic effects from long term exposure

Carcinogenicity

Not expected to cause cancer. This product meets the IP-346 criteria of <3% PAH's and is not considered a carcinogen by the International Agency for Research on Cancer.

Reproductive and Developmental Toxicity

Not known or reported to cause reproductive or developmental toxicity.

Mutagenicity

No data available to indicate product or any components present at greater than 0.1% is mutagenic or genotoxic.

Inhalation

Harmful! Can cause systemic damage upon prolonged and/or repeated exposure (see "Target Organs").

Breathing oil mist in concentrations that exceed the TLV and PEL may result in respiratory discomfort and irritation.

Skin Contact

Unlikely to cause irritation even on repeated contact.

Skin Absorption

Upon prolonged or repeated exposure, no hazard in normal industrial use.

Ingestion

No hazard in normal industrial use.

STOT-single exposure

Based on available data, the classification criteria are not met.

STOT-repeated exposure

Based on available data, the classification criteria are not met.

Aspiration hazard

Based on available data, the classification criteria are not met.

Numerical measures of toxicity, including ATEs Based on available data, the classification criteria are not met.

12 Ecological information

Ecotoxicity (aquatic and terrestrial, if available)

Slight ecological hazard. In high concentrations, this product may be dangerous to plants and/or wildlife.

Ecological Toxicity Data

Chemical Name	CAS registry number and any unique identifiers	Aquatic EC50 Crustacea	Aquatic ERC50 Algae	Aquatic LC50 Fish
No data available				

Persistence and degradability

Biodegrades slowly.

Bioaccumulative potential

Bioconcentration may occur.

Mobility in soil

This material is expected to have essentially no mobility in soil. It absorbs strongly to most soil types.

Other adverse effects

No data available

13 Disposal considerations

Information on safe handling for disposal and methods of disposal, including any contaminated packaging

Spent or discarded material is non-hazardous according to environmental regulations.

14 Transport information

Transportation of Dangerous Goods by land (TDG)

UN number

Not regulated for road transport

United Nations proper shipping name as provided for in the United Nations Model Regulations

Not applicable

Transport hazard class as provided in the United Nations Model Regulations

Not applicable

Packing group as provided in the United Nations Model Regulations

Not applicable

International carriage of dangerous goods by sea (IMDG/IMO)

UN number

Not regulated by IMDG

United Nations proper shipping name as provided for in the United Nations Model Regulations

Not applicable

Transport hazard class as provided in the United Nations Model Regulations

Not applicable

Packing group as provided in the United Nations Model Regulations

Not applicable

International carriage of dangerous goods by air (IATA)

UN number

Not regulated by IATA

United Nations proper shipping name as provided for in the United Nations Model Regulations

Not applicable

Transport hazard class as provided in the United Nations Model Regulations

Not applicable

Packing group as provided in the United Nations Model Regulations

Not applicable

Environmental hazards according to

No

the International Maritime Dangerous Goods Code and the United Nations Model Regulations

Transport in bulk (according to Annex II of the International Convention for the Prevention of Pollution From Ships, 1973, as modified by the Protocol of 1978 (MARPOL 73/78) and the International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk (IBC Code))

No data available

Special precautions in connection with transport or conveyance either within or outside the premises

No data available

15 Regulatory information

Safety, health and environmental regulations, made within or outside Canada, specific to the product in question
Canada - Domestic Substances List (DSL)

Chemical Name	CAS No	Canada - Domestic Substances List (DSL)
Petroleum distillates, hydrotreated heavy naphthenic	64742-52-5	Yes

Canada - Non-Domestic Substances List (NDSL)

Chemical Name	CAS No	Canada - Non-Domestic Substances List (NDSL)
Petroleum distillates, hydrotreated heavy naphthenic	64742-52-5	No

Canada - Controlled Drugs and Substances

Chemical Name	CAS No	Schedule I	Schedule II	Schedule III	Schedule IV	Schedule V	Schedule VII	Schedule VIII
