Specifications

GP Tren Enanth 200 mg 10 ml. GP Tren Enanth is an injectable steroid containing 200 mg per ML of the hormone Trenbolone Enanthate. The Enanthate ester attached to this steroid makes it possible to keep blood levels steady with less frequent injections than if the bodybuilder was using the acetate ester of the drug. GP Tren Enanth is an injectable steroid containing 200 mg per ML of the hormone

Trenbolone Enanthate. The Enanthate ester attached to this steroid makes it possible to keep blood levels steady with less frequent injections than if the bodybuilder was using the acetate ester of the drug.

Features of the Tren Enanthate: This drug involves injection up to 2 times a week. The optimal dose for athletes is about 250-300 mg over 7 days. Due to the lack of need for daily injections, this drug is considered to be more convenient and versatile. [navigate to this site](#)

GP Tren Enanth 200 mg 10 ml. GP Tren Enanth is an injectable steroid containing 200 mg per ML of the hormone Trenbolone Enanthate. The Enanthate ester attached to this steroid makes it possible to keep blood levels steady with less frequent injections than if the bodybuilder was using the acetate ester of the drug. Trenbolone 200 manufactured by Dragon Pharma is an anabolic steroid with enanthate ester which has an effect five times that of testosterone and is free from side effects like gynecomastia, water-retention. Trenbolone 200 raises the levels of IGF-1 and it powerfully interacts with the receptors of muscle growth preventing glucocorticoid hormones.
