Cable Strut Kit

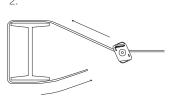

Designed specifically for spanning installations and bracing applications. NOT suitable for use in chlorinated / swimming pool environments.

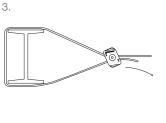

FEATURES / BENEFITS

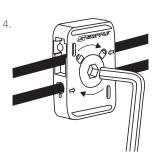

- The light duty 1/8" version is ideal for suspending lightweight electrical services, ductwork and signage up to 70 lbs per span
- The heavy duty 1/4" version is perfect for suspending M&E or HVAC services, or where a long Cable Strut is required up to 220 lbs per span
- Supplied as ready-to-use kits including two fasteners, specific length of cable, and lock / release key
- Fast installation, reducing time spent working at height
- Quarter turn locking mechanism in the fastener prevents dynamic movements
- Easily tensioned using the Gripple D6 CTI Tensioning Tool (1/4" Cable Strut <u>only</u>)

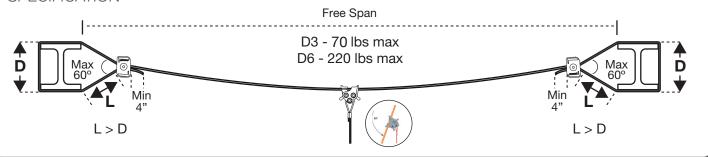

SPECIFICATION

SUBMITTAL INFORMATION

Load Rating:

- D3 up to 70 lbs vertical load per span Connection type: 1/8" C-Clip Not suitable for use with any Tensioning Tool
- D6 up to 220 lbs vertical load per span Connection type: 1/4" C Clip Can be used with the D6 CTI Tensioning Tool

Fastener Material:

Ceramic rollers and stainless springs for optimum corrosion resistance

Cable Specifications:

- D3 Galvanized 7x7 1/8" steel cable (For Outdoor Use-CTO) Zinc Aluminum ZnAL Coated Carbon Steel 1x19 1/8 cable
- D6 Galvanized 7x19 1/4" steel cable (For Outdoor Use-CTO) Zinc Aluminum ZnAL Coated Carbon Steel 7x19 1/4" cable
