

POLY SPIKE LANDSCAPE LIGHT

Corrosion free, 4-W, warm white light on a spike to light up your garden, pool or pond area. It is the perfect light to create the ambience for landscaping projects. It has plug and play technology to run more lights in a series by simply plugging another light on. We supply a starter kit of three poly-spike lights and transformer. Extra poly-spike lights and transformers can also be purchased separately.

Starter kit includes three lights and a transformer. One transformer will accommodate up to 10 lights. Polyspike lights and transformers can be purchased separately according to your requirements.
