

Alpha LED Pool Lights

POOL GLOW MINI 100

CHOOSE YOUR AMBIENT LIGHTING

Available in 16-pre-programmed light scenes

RGB 6W LED Inserts - RGB or Static Colour Available

The Mini100 is a leakproof light which is used for multiple light replacements including the Poly Optics range, Glow and Flow series. It has a higher light output and wider beam than the original lights and provides even illumination. It is also simple and easy to fit as it inserts into the existing pool light enclosure.
