**FLEXA<sup>®</sup>**

# CALMING COMFORT

## The FLEXA Mattress Collection

The FLEXA Mattress collection is mattresses and covers combined for the best possible comfort and ergonomic support for growing children. All products are made using only long-lasting, quality materials that are free from any harmful substances, providing the best framework for a natural and healthy sleeping environment that promotes quality sleep.

With the Mattress collection we wish to give babies, toddlers, tweens, and teenagers optimal

conditions for a good night's sleep because well-rested children have better capacity to grow, develop, and thrive. All children benefit from a mattress and a cover that suits their size, development, and body temperature. That's why you can choose between many different mattress and cover combinations to find the perfect match for the child.

Create a safe and supportive sleeping environment with the Mattress collection.

# UNIQUE SELLING POINTS

Comfort and ergonomic support  
for growing children

Mattresses and covers can be  
combined and adapted to match  
the child's needs

Meets EU's strictest quality and  
safety requirements

Standard 100 by OEKO-TEX®

Designed in Denmark

# FIND THE RIGHT MATTRESS

## The FLEXA Mattress

A mattress with 3 cm latex with cool gel on one side, 5 cm cold foam in the middle, and 4 cm latex on the other side. Latex with air ducts provides good ventilation and transports moisture away from the body. The mattress is reversible to secure the right support for the growing child. Start by using the side with the 3 cm of latex. When the child reaches 40 kg, it's time to turn the mattress.

Suitable for children with sensitive skin or allergies.

## FLEXA Latex

A mattress with 6 cm latex and 6 cm cold foam on each side. Latex with air ducts provides good ventilation and transports moisture away from the body. The mattress adapts to the child's body, and it has a water-repellent, non-woven inner cover.

Suitable for children with sensitive skin or allergies.

## FLEXA Foam

A mattress with 12 cm premium foam and a zone landscape that adjusts to the movements of the child. The foam mattress has good ventilation which prevents the child from overheating. It has a non-woven, antibacterial and water-repellent inner cover.

## FLEXA Spring

A mattress that consists of 218 springs per m<sup>2</sup>. Surrounded by 3 cm soft flexible cold foam to ensure increased comfort for the child. The mattress has good ventilation which prevents the child from overheating. It has a water-repellent, non-woven inner cover.

Provides the right support for children over 50 kg.

# FIND THE RIGHT COVER

## Cotton Cover

Perfect for most children. The cover has a soft surface, and it's made of 100% natural materials for reinforced breathability that can help regulate the child's body temperature throughout the night.

## Bamboo Cover

Perfect for children with sensitive skin or allergies. The cover has a silky soft surface, and the fabric has antibacterial properties, which helps create a nice, hygienic sleeping environment.

## Eucalyptus Cover

Perfect for children who tend to sleep hot. The cover has a cooling effect and can help transport heat away from the body and absorb moisture, ensuring that the sleeping environment stays dry and comfortable.

# COLLECTION OVERVIEW

# MATRESSES

## Calming comfort for growing children

Mattresses and covers in quality materials to give children the best possible conditions for a good night's sleep.  
Because well-rested children are healthier and happier.
