

LAWSON

SIZE GUIDE - RINGS

Finding your LAWSON ring size made simple, whether you're choosing a gift for a loved one or for yourself you can follow the two proposed methods below.

Method I:

- We advise you to measure your finger at the end of the day and make sure your hands aren't cold, for more reliable results as the weather make affect the size.
- Start off with cutting a piece of paper that is 1cm in width or you may use a string or ribbon as a sizing guide.
- Wrap it around the finger you desire to purchase LAWSON ring for.
- We recommend you to choose a size that fits comfortably around your finger and slides; hence we recommend to measure your knuckle as well.
- Mark the point where your wrapped sizing guide end meets with a pen.
- Take your marked guide, speared it on a flat surface, and measure it with a ruler in millimeters.
- Choose the size that corresponds to the chart below.
- If the size you've measured is in between two sizes, we recommend to choose the larger size option on the chart.

LAWSON

FINGER CIRCUMFERENCE IN MM	RING DIAMETER IN MM	RING SIZE		
		EUROPE	US/UK	JAPAN
41	13.06	41	1 3/4	1

SIZE GUIDE - RINGS

Method II:

- Take your wedding band or any simple ring you have, you usually wear on the same finger you wish to choose your LAWSON ring.
- Place your ring on top of the circles below to see which size matches the outline of your ring.
- The number on the circle that corresponds with your ring is your size.
- Review the size chart if you're looking for the size number conversion.
- If your ring size is in between two circle sizes, to choose the larger size option on the chart
