This PDF contains a 4 page rules supplement to the Pine Tar Baseball game. These rules are optional and may be applied to any season for the game. Following the rules supplement are SO/BB (strike out/walk) pitcher ratings for the 1884, 1889 and 2014 seasons. Future seasons will be released with the SO/BB right on the pitcher stat sheets.

This supplement may be printed out for personal use only. No form of distribution is allowed without the express written permission of LISG.

For any inquiries into the game contact James Formo at ttlgames@yahoo.com

Additional seasons for Pine Tar and the printed version of the game are available at http://ttlbaseballgame.com/

Pine Tar Baseball Optional Rules Supplement

SO/BB Pitching Rating Rule

The 1897 and 1973 editions of Pine Tar baseball rolled out a new 'strike out/base on balls' rating for pitchers. This rating appears right on the pitcher stats for these 2 seasons. For 19th century seasons this new rating appears just to the left of the pitcher's grade. For more modern seasons the new rating appears at the very bottom of the pitcher's 'card', just below his batting column. Future seasons will all come with these special pitcher ratings. Previous seasons will eventually have a PDF with these ratings.

The new ratings include:

SO 77	
SO 55, 77	
SO 55-60, 77	
NC (no change)	
BB 77	
BB 55, 77	
BB 55-60, 77	

How it Works

When you begin a game, record the starting pitchers grade and SO/BB rating on the scorecard. Do this for each teams 'opposing' pitcher for quick reference during the game.

Anytime a batter roll of 55-60 or 77 occurs and the opposing pitcher has a BB/SO rating that indicates that roll value, change the initial outcome to the result listed in the pitcher's SO/BB rating. Very few pitchers use the 55-60 range so most checks are for 55 or 77.

Examples

1: A pitcher is rated SO 55, 77. The batter roll is a 77 which indicates a FO-RF. Because of the pitchers SO rating that lists the value of 77, this play is turned into a strike out.

2: A pitcher is rated SO 55, 77. The batter roll is a 55 which indicates a SO. The play stays as a strike out. If the batter outcome had indicated anything else, such as GO-1B, the play would have been turned into a strike out.

3: A pitcher is rated BB 77. The batter roll is a 77 which indicates GO-3B. The play becomes a base on balls because of the pitcher's BB rating that lists 77.

4: A pitcher is rated BB 55-60, 77. The batter roll is a 59 which indicates SO. The play becomes a base on balls instead because the batter roll of 59 falls in the 55-60 range listed for this BB 55-60, 77 rated pitcher.

Straight Steals of Home

Conditions:

- A base runner must have either an A, B, or C SBO rating in order to attempt to steal home.
- There has to be less than 2 outs.
- Neither team may be ahead by more than 2 runs.
- The team must have enough 'steal points' to attempt the steal

If the above conditions are met the runner may attempt to steal. Opportunity restrictions still apply to the base runner based on his SBO grade. For example, a runner with an SBO of C could only attempt a steal in the 6th inning or later.

To perform the steal attempt, simply subtract 55 from the runners Stolen Base Chance (SBC). So if the runner has an SBC of 89, when he tried to steal home it would become 89-55 = 34. The catcher AR rating doesn't come into play. Each team may only attempt to steal home once a month during the course of a season.

Double Steals of Second & Home

Conditions:

- There must be runners on 1st and 3rd.
- Both base runners must have a C or higher SBO rating.
- There has to be less than 2 outs.
- Neither team may be ahead by more than 2 runs.
- The team must have enough 'steal points' to attempt the steal.

If the above conditions are met the runners may attempt a double steal. Opportunity restrictions only apply to the runner on 3rd base. For example, if the runner on 3rd base has an SBO of C he could only be involved in a double steal in the 7th inning or later. Double steals always cost 2 points regardless of what SBO grade the base runners involved are. Steal points come from the runner on 3rd only.

To perform the steal attempt, simply subtract 45 from the runner on 3rd's Stolen Base Chance (SBC). Then add in 1/2 of the catchers AR rating rounded up to the higher integer. Note that the SBC value for the runner on 1st base is not used in determining double steals.

For example: The runner on 3rd base has an SBC of 89 and the Catcher's AR is -7. Subtracting 45 from 89 gives 44. One half of the catchers -7 AR would be -4 after rounding. 'Adding' -4 to 44 gives 40. So 40 is now the final SBC used to determine if the double steal will succeed. On rolls of 0-40, the double steal would be successful with both base runners advancing 1 base. On rolls of 41-99. The runner on 3rd would be thrown out at home while the runner on 1st would be safe at second base.

For the highest chance of a successful double steal, it is best to attempt these on positive AR rated opposing catchers. If in the same situation above the catcher was rated AR +12, the final SBC would work out to 50. 89-45+1/2(AR of 12) = 50.

Rules for Playing In (Close)

Conditions:

- There must be a runner on 3rd base that can't be forced out at home.
- There must be less than 2 outs.
- With 1 out, there can not be a runner on 1st base. In other words, no playing close when a double play would end the inning.

When the conditions above are met, the player/manager controlling the defense may choose to play the infield in. In multi-player games this must be declared before the dice are rolled for the next batter. Playing 'in' increases the chance of cutting down the runner on 3rd on a grounder. The downside is it makes it more likely for a base hit to make it through the infield. When a player declares that his defense is playing close(in) the modifiers shown below are applied on all ground outs and singles.

Ground Outs: When using ground out tables, subtract 2 from the unmodified white die value. Zero is the lowest value possible. When using the 'GO table w/runner on 1st' table a GDP result is instead a FC that tags the runner out at home with the batter reaching. No GDP's are possible when playing close.

Singles: Add 3 to the 1B range on the current hitter's batting column. For example: The current batters 1B range is 7-22. When the defense plays close this batter's new 1B range is extended by 3, making his 1B range 7-25 for this at bat only. If 23-25 had an outcome of BB previously, those are now hits instead.

Rare Play Rules

The use of the 'Rare Play' table is entirely optional. To use rare plays; the first time a 44 is the result on a batter roll perform another 2 die roll in place of getting the result off of the hitter's column. Reference the result of this new roll on the 'Rare Play' table and use the column to the right that fits the base runner circumstance. There are 2 columns, one for when the bases are empty and one for when at least 1 or more runners are on base.

For example: Say you roll a 44. You roll again and get a 15. If the bases are empty the new result would be a strike out on a wild pitch with the batter reaching first. If there is at least 1 base runner then the result is a wild pitch with any base runner advancing 1 base. In this latter case the same hitter is still at bat with a count of 1-0.

Note that the 'Rare Play' table is used no more than once per game. Not once per team but once per game. Therefore, after the first rare play of the game any further batter rolls of 44 are found off of the hitter's stats just like they normally would be.

Rare Play Table

Optional Rule - Applies to first batter roll of 44

Pine Tar Baseball TM

Rare plays may be used to add more variety to game play. Only the first batter roll that results in 44 is used. From then on, the result of every 44 is taken directly from the batter's card. To use the rare play table, a second 2 die roll is performed using the blue/white dice combo. The die roll is found off the chart below with the new outcome given to the right of the die roll. Rare play outcomes vary by whether the bases are empty or runners are on.

Die Roll	Bases Empty	Runner(s) On
0-1	Line out to Thirdbaseman	Line out to 3B, lead runner doubled off. If at least 2 runners were on base, the 2 lead runners are both doubled off for a triple play.
2-7	If batter has an HBP entry = HBP, No HBP entry = ball 2	Passed Ball
8-10	Game delayed for 2 hours due to power failure (rain in open park or before electricity) Current pitchers must be replaced when game resumes.	Game delayed for 2 hours due to power failure (rain in open park or before electricity) Current pitchers must be replaced when game resumes.
11-16	Strike Out/Wild Pitch - batter reaches	Wild Pitch - all base runners advance one base.
17-20	Left fielder loses routine fly ball in the lights/sun. Play is ruled as a double.	Left fielder loses routine fly ball in the lights/sun. Play is ruled as a double. All base runners advance 2 bases.
21-23	Game is delayed for 30 minutes by a swarm of flying insects. Current pitchers have their grade reduced by 1	Game is delayed for 30 minutes by a swarm of flying insects. Current pitchers have their grade reduced by 1.
24-29	Base on Balls	If runners are on 1st and 2nd and both have an SBO rating of at least E, they attempt a double steal. If these conditions are not met then the play is instead Ball 2. This attempt uses no steal points.
30-31	The batter has both a 3B and HR entry = Inside the park home run. If conditions are not met the result is simply a foul ball.	The batter has both a 3B and HR entry = Inside the park home run. If conditions are not met the result is simply a foul ball.
32-41	Strike Out and the batter is ejected for arguing the call.	Strike Out and the batter is ejected for arguing the call
42-48	Batter reaches on catchers interference.	Batter reaches on catchers interference.
49-50	Base on Balls and catcher ejected for arguing	Base on Balls and catcher ejected for arguing the call
51	Strike Out with the catcher injured by hitters back swing. Catcher must miss the next 4 games.	Strike Out with the catcher injured by hitters back swing. Catcher must miss the next 4 games.
52-53	HBP and the umpire ejects the current pitcher for throwing at the batter. Manager is also ejected.	HBP and the umpire ejects the current pitcher for throwing at the batter. Manager is also ejected.
54-70	Infield Hit	Infield Hit
71-74	Batter tries to check his swing but is called out on strikes	Pitcher tries to pick off the lead runner but throws the ball away. E-1 with all runners advancing 1 base.
75-90	Foul Ball	Left handed pitcher picks off the lead runner. If the bases are loaded or the pitcher is right handed the result is instead ball 2.
91-93	Base hit to centerfield	The lead runner is hit by the batted ball and by rule is called out. Any other runners return to the base they occupied at the start of the play. The batter is awarded 1st base.
94-99	Batter is ruled out on fan interference on a pop fly into the first row of the stands on the first base side.	Batter is ruled out on fan interference on a pop fly into the first row of the stands on the third base side.
