5-20x56

AWARD WINNING

NIGHTFORCE®

NIGHTFORCE®

56 mm objective

Exposed elevation adjustment with 10 MOA per revolution

Capped windage adjustment

ZeroSET
For a repeatable return to zero

30 mm body tube for superior strength and maximum adjustment range

Side parallax and illumination* adjustment

Fast focus eyepiece

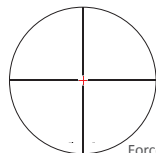

Award Winning

The Nightforce SHV 5-20x56 delivers exceptional quality and precision at an affordable price. While the quality of many lesser variable-power riflescopes deteriorates dramatically at high magnification, our SHV™ 5-20x56 provides superb clarity, crispness and color contrast throughout its entire magnification range. With premium features including: a 30mm main tube, exposed elevation adjustment with ZeroSet™, and multiple reticle and illumination options, the SHV™ 5-20x56 is a more than capable partner for your next long range shooting adventure.

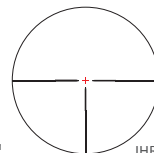

Recipient of the Hunt Alaska Editors' Choice Award for Best Optics - 2016. Only gear that can survive the harshest extremes of the Alaskan wilderness are candidates for this award, and the SHV™ 5-20x56 came out on top.

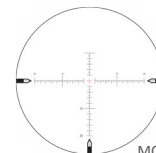

Focal Plane	Second
Objective diameter	56 mm
Tube diameter	30 mm
Internal adjustment	e: 80 MOA; w: 50 MOA
Click value	.25 MOA
Parallax adjustment	25 yd - ∞
Exit pupil	5x: 8.7 mm; 20x: 2.5mm
Eye relief	80-90 mm
Field of view @ 100Y	5x: 17.9 ft; 20x: 5.0 ft
Overall length	15.2 in
Weight	29.1/30.5* oz
Mounting length	6.5in
